India's reform trajectory is being lauded globally. In the last 8 years, India has not reformed by compulsion. India has reformed by conviction. Our reform trajectory is a win-win for all stakeholders.

**@JPNadda**

Our party has secured all 13 wards in the Daman- Diu- Dadra Nagar Haveli municipal elections, winning 6 unopposed and 7 through elections. This is all possible because of the unwavering faith of the people in the vision of Hon. PM @narendramodi and the hardwork of @BJP4DamanDiu

**@AmitShah**

Once upon a time a permit had to be obtained to enter Jammu and Kashmir. Dr. Shyama Prasad Mukherjee ji sacrificed his life with the resolve of one law, one head and one symbol, ending permit raj from Kashmir and making it an integral part of India. We will always be indebted to Dr. Mukherjee ji for this struggle and sacrifice.

**@rajnathsingh**

On the successful completion of 100 days of the second term of the BJP government in UP Congratulations to Chief Minister @myogiadityanathji and his entire team. There has been a qualitative improvement in the state in terms of development and good governance. It is my best wish that this government should be completely successful in the direction of building a new Uttar Pradesh.

# TRUTH PREVAILS

The Supreme Court verdict approving the closure report of the SIT on the Gujarat riots has further strengthened the faith of people in the Indian judicial system. The judiciary, from the district level to the high court and finally the Supreme Court, has spoken with one voice in approving the closure report of the SIT. It has to be noted that the Supreme Court has not only backed the findings of the SIT but also condemned the design to implicate Prime Minister Shri Narendra Modi in the strongest terms. The conspiracy hatched by some 'frustrated officials', NGOs, and a section of the media in complicity with a section of foreign media at the behest of the Congress led opposition has finally been exposed and the time has come that these culprits should be taken to task by the law of the land. It is highly unfortunate that this gang of conspirators left no stone unturned in misleading the nation while attempting to misguide the investigating agencies by repeatedly misrepresenting the facts. The attempt to drag the cases for years on one pretext or another has finally been defeated in the highest court of justice in the country. The truth has finally prevailed and the conspiracy now stands unmasked before the nation.

While the nation stood united with Prime Minister Shri Narendra Modi throughout this long ordeal, the

**The conspiracy to defame Guajrat and implicate the then Gujarat chief minister, Shri Narendra Modi, in the wake of the Godhra and Gujarat riots was hatched at the highest levels on the basis of lies, deceit, and distortion of facts**

Prime Minister himself presented a rare example of patience and tolerance, facing every challenge silently. It was only possible on the strength of his unflinching faith in the judiciary, judicial process, and system of justice of the country. The conspiracy to defame Guajrat and implicate the then Gujarat chief minister, Shri Narendra Modi, in the wake of the Godhra and Gujarat riots was hatched at the highest levels on the basis of lies, deceit, and distortion of facts. It was a blatant display of vendetta politics, attempting to defeat Shri Narendra Modi through conspiracy after repeatedly failing to defeat him in the court of the people. The conspiracy unfolded for years, taking various forms and on different forums, taking even foreign lands under its ambit, but truth prevailed everywhere. The testing times, which dragged on for years, were borne with unparalleled patience, extremely graceful conduct, indomitable courage, and indefatigable spirit, exuding firm belief in democracy while getting energy from the boundless love and affection of the people. The nation is feeling proud of Shri Narendra Modi today, even more than before.

While Shri Narendra Modi had immense respect for the constitution, the law of the land, the democratic system, judicial process, and judicial system of the country throughout these years of conspiracy, the Congress has shown utter disregard for these defining features of Indian democracy. The kind of drama enacted in the name of protest on the streets of Delhi when the current Congress president and a former president of the party were summoned by ED speaks volumes of its disregard for the law of the land. Not only this, the Congress and its leaders have been continuously attacking the constitutional institutions, the judiciary, the elections commission and any other agency which refuses to oblige or be pressured by it. In fact, even after being repeatedly rejected by the people, the Congress leaders seem to consider India as their fiefdom, and their faith in dynastic politics makes them keep their first family above the law of the land. The democratic spirit of the nation now firmly stands against the dynastic politics of Congress. As the Supreme Court has directed the legal machinery to proceed stringently against the conspirators against the Prime Minister, Congress and its gang of conspirators can no longer escape the long arms of the law. ■

## BJP NATIONAL EXECUTIVE MEETING-2022

# MODI GOVERNMENT FOCUSES ON DEVELOPMENT AND GROWTH OF EVERY CITIZEN: JP NADDA

## BJP NATIONAL PRESIDENT'S ADDRESS

**T**he Bharatiya Janata Party National President Shri Jagat Prakash Nadda on 02 July, 2022 inaugurated the two day BJP National Executive Meeting in the gracious presence of the Hon'ble Prime Minister Shri Narendra Modi at Hyderabad in Telangana. Those present in the dais during the inaugural session were Prime Minister Shri Narendra Modi, BJP National President Shri Jagat Prakash Nadda and Leader of the House in Rajya Sabha and Union Minister Shri Piyush Goyal. The inauguration took place with the lighting of the lamps and welcoming of the guests.

Prior to this Prime Minister Shri Narendra Modi and BJP National President Shri JP Nadda were accorded a rousing welcome when they reached the National Executive Meeting venue. The National Executive Meeting venue reverberated with the slogans of 'Bharat Mata Ki Jai' and 'Modi Modi'.

Addressing the inaugural session, BJP National President Shri Jagat Prakash Nadda said, under the leadership of our Hon'ble Prime Minister the nation is celebrating 'Amrit Mahotsav' which is a conscious effort of PM Shri Modi to introduce to our young generation the great freedom fighters and leaders who made supreme sacrifices and gave their everything for the Independence of our nation. He said Prime Minister Shri Narendra Modi has made 'Sabka Saath, Sabka Vikas, Sabka Vishwas and Sabka Prayas' the guiding principle of his model of governance through which he is working for the welfare and upliftment of all sections of our society. The Narendra Modi government is focused on development and growth of every citizen. Here we are publishing the salient points of the inaugural address of BJP National President Shri Jagat Prakash Nadda:

## MAIN POINTS OF THE SPEECH

- The nation is celebrating the 'Amrit Kal' of our Independence. Under the dynamic and decisive leadership of our Hon'ble Prime Minister Shri Narendra Modi the BJP government has completed highly successful eight years at the Centre. Shri Narendra Modi has completed 20 years in the position of Constitutional head -- first as the Chief Minister of Gujarat and now as the Prime Minister, this is a rare and great achievement. From this stage I heartily welcome and congratulate our Hon'ble Prime Minister Shri Narendra Modi.
- Under the leadership of our Hon'ble Prime Minister the nation is celebrating 'Amrit Mahotsav' which is a conscious effort of Shri Modi to introduce to our young generation the great freedom fighters and leaders who made supreme sacrifices and gave their everything for the Independence of our nation. There are countless such unknown soldiers and freedom fighters who fought for our Independence, I from this stage pay rich tributes to all such freedom fighters and on behalf of the entire nation pay respect for all their sacrifices.
- Our great leader Dr. Shyama Prasad Mukerjee founded the Jana Sangh with the sole aim to end the system of 'Do Vidhan, Do Pradhan and Do Nishan' from the country which was in force even after achieving our Independence. And it was due to the strong willpower and commitment of our Prime Minister Shri Narendra Modi and impeccable planning of our Union Home Minister Shri Amit Shah that this dream was also fulfilled as the Article 370 was demolished forever from Jammu and Kashmir and it became the integral part of India in its true sense.
- Integral humanism and Antyodaya (welfare of the poorest of the poor) is the basic ideology of the BJP. Today, Prime Minister Shri Narendra Modi has made 'Sabka Saath, Sabka Vikas, Sabka Vishwas and Sabka Prayas' as the guiding principle of his model of governance through which he is working for the welfare and upliftment of all sections of our society. The Narendra Modi government is focused

Dr. Shyama Prasad Mukerjee  
founded the Jana Sangh with the sole  
aim to end the system of 'Do  
Vidhan, Do Pradhan and Do Nishan'  
from the country

on development and growth of every citizen.

- Since Independence, if any government or leader has worked so much for the overall and all round welfare of our Adivasis brothers and sisters, it is Prime Minister Shri Narendra Modi and the BJP government under his leadership. Prime Minister Shri Narendra Modi has worked very hard to bring our tribal societies into the national mainstream. To grace the highest office of the President, the BJP has made prominent tribal leader Smt. Draupadi Murmu as NDA's Presidential candidate. From this stage I appeal to all the political parties across the country to rise above their party sentiment and support Smt. Draupadi Murmu and ensure her emphatic victory.
- Yesterday, the Janata Dal (Secular) and the Shiromani Akali Dal extended their support to the candidature of Smt. Draupadi Murmu. For this I thank and congratulate former Prime Minister Shri HD Devegowda and Shri Sukhbir Badal. I also appeal to all other political parties to come out in support of Smt. Draupadi Murmu.
  - Under the leadership and guidance of Prime Minister Shri Narendra Modi, the BJP has scaled new heights and created new records in the electoral politics by winning elections after elections. The BJP recorded historic and emphatic wins in assembly elections in Uttar Pradesh, Uttarakhand, Goa and Manipur. In Uttar Pradesh it was the BJP-led NDA and in Uttarakhand the BJP which secured two-third majority for the second consecutive time, thus breaking several records and myths. In Manipur the BJP forward the government on its own, which was for the second time the BJP forward its government. The BJP won elections in one coastal state, one North-eastern state, one Himalayan state and also in the country's largest state -- which proves that Prime Minister Shri Narendra Modi and the BJP have further consolidated the trust and faith which they enjoy among the people across the country.
- After 37 long years Uttar Pradesh saw the incumbent party forming its government again. Also, our vote

was 9% more than the Samajwadi Party which came second, it is historic. The BJP recorded a clean sweep in 23 districts. The Congress had fielded 399 candidates in the UP assembly elections, and out of these 387 candidates lost their deposits. Similarly, the Aam Aadmi Party (AAP) also tried its luck in Uttar Pradesh by contesting 377 seats and all its candidates lost their deposit.

- In Uttarakhand the BJP won 47 seats. Here also the AAP contested in all 70 seats where 68 of its candidates could not save their deposits. In Goa the BJP once again formed its government for the third consecutive term. In Goa AAP contested in 39 seats where 35 of its candidates lost their deposits. Mamata Banerjee's Trinamool Congress party also tried its luck by contesting in 26 seats but its candidates in 21 seats lost their deposits.
- Apart from the assembly elections, the BJP has also emerged victorious in local body elections across the country. From Ladakh to Hyderabad, from Gujarat to Arunachal Pradesh -- wherever elections have been held, the BJP has secured resounding victories. We won 100% seats in Gujarat and Assam.

The BJP also secured massive wins in Rajasthan, Uttar Pradesh, Goa, Arunachal Pradesh and Jammu & Kashmir.

- The BJP also registered magnificent wins in recently held assembly by-elections. In Uttar Pradesh we wrested Azamgarh and Rampur Lok Sabha seats from Samajwadi Party which is historic. In Tripura assembly by-elections the BJP won 3 out of 4 seats.
- Prime Minister Shri Narendra Modi has changed the political culture of India. He has ended the politics of casteism, dynasty, nepotism, appeasement, corruption and communalism. Today, development and growth have become the pivots of Indian politics. India's political work culture has been completely transformed under Shri Narendra Modi. The Narendra Modi government is highly committed to welfare of the people and it giving Pro-Active, Pro-Responsive, and Pro-

Poor government. Prime Minister Shri Narendra Modi has given a new culture of governance and has established the 'Politics of Performance' and Development.

- Pradhanmantri Gareeb Kalyan Ann Yojana, Pradhanmantri Kisan Samman Sindhi Yojana, Soubhagya Yojana, Jal Jeevan Mission, Ayushman Bharat Yojana, Swachh Bharat Yojana, Jan Dhan Yojana, Pradhanmantri Ujjawala Yojana are some of the initiatives of the Narendra Modi Government which have established public welfare governance in the country today. Under the Pradhanmantri Gareeb Kalyan Anna Yojana over 80 crore poor and needy people across the country have been getting free rations across the country for the past 2 years. The Narendra Modi government is spending over Rs 3 lakh crore on this pro poor initiative. Atal Pension Yojana, Jeevan

Jyoti Bima Yojana and Jeevan Jyoti Suraksha Bima Yojana -- through these 3 schemes the Narendra Modi government is giving social security cover to over 40 crore people across the country.

- Today, India is witnessing the Digital Revolution. Today world's 40% of the world's

digital transactions are happening in India. There has been a 231% increase in Internet connections in the country. Over 133 crore Indians have already got their Aadhar cards.

- The Corona pandemic badly affected the global economy. The world is facing an economic crisis and trying to battle after-effects of the pandemic. It was the Narendra Modi government which showed the world how to fight the pandemic and save its economy and people. India performed magnificently on the economic front despite the pandemic. In the last financial years, India clocked a growth rate of over 8.7% while the world's average growth rate was just 6%. In the past eight years Prime Minister Shri Narendra Modi has worked hard for the welfare of the poor which has resulted in India managing to reduce its poverty from 22% to below 10%, while the extreme poverty rate has remained below 1% despite the country facing

After 37 long years Uttar Pradesh saw the incumbent party forming its government again. Also, our vote was 9% more than the Samajwadi Party which came second, it is historic

the Corona pandemic. All this has been due to the highly effective social and economic policies and programmes initiated by Prime Minister Shri Narendra Modi to counter the pandemic.

- Despite the pandemic India's growth rate in 2021-22 was an impressive 8.7% which is highest in the world. Despite hardships due to Corona our GST collections have remained over Rs 1.5 lakh crore which shows the robustness of our economy under the Narendra Modi government. FDI inflow has increased while India's exports in the last financial year crossed a record \$ 428 billion. India is fast moving forward to become a \$5 trillion economy. The Rs 100 lakh crore PM Gati Shakti Yojana has strengthened India's infrastructure besides filling gaps in the last mile connectivity. Schemes and programmes are being implemented in a massive scale and in a time bound manner which will not only strengthen our country but also create massive job opportunities.
- Under the leadership and guidance of Prime Minister Shri Narendra Modi India developed two 'Made In India' Corona vaccines thus showing India's prowess, while around 197 crore vaccine doses have already been administered so far. India gave over 1.48 crore vaccine doses to various countries free of cost. We also gave vaccines to over 100 nations. Indian vaccines have been appreciated across the world as they are cheap and highly effective. Our Vaccine Maitri initiative has been hailed across the globe.
- Since coming to power Prime Minister Shri Narendra Modi has given the nation the National Education Policy and National Health Policy. It is a matter of great pride and satisfaction for all of us that both these highly effective and forward looking policies have been formulated keeping the soul of India in mind, which are deeply rooted to Indianness. All national languages have been given due recognition in the National Education Policy which has provision for growth and development of our ancient language Sanskrit.
- Under the leadership of Prime Minister Shri

**Under the leadership of Prime Minister Shri Narendra Modi, India has emerged as a strong and self-reliant nation on the world stage**

Narendra Modi, India has become strong and our borders have been fortified. The Narendra Modi government has given special emphasis on the development of infrastructure along our international border. The Defence Minister of the Congress era used to say if we construct roads on our borders a neighbouring country will be annoyed and become angry. But today Prime Minister Shri Narendra Modi has established a foreign policy which is free and fair, which gives our nation's interest top priority.

- There were times when India was seen as a stooge of other nations. But under the leadership of Prime Minister Shri Narendra Modi, India has emerged as a strong and self-reliant nation on the world stage. In the recently concluded G7 summit Prime Minister was specially invited, which underlines the growing influence of India on the global

platform and also showcases how the world sees today India differently under Prime Minister Shri Narendra Modi. Indian Diaspora has got recognition and importance due to the proactive approach and multidimensional leadership of Prime Minister Shri Narendra Modi. It is due to the effective

foreign policy of Prime Minister Shri Narendra Modi that India was able to evacuate over 23,000 students from war-torn Ukraine.

- While India is setting new benchmarks in growth and development under the leadership of Prime Minister Shri Narendra Modi, the Opposition parties have been playing a very negative and irresponsible role. The Opposition is trying to mislead and misguide the nation through its politics which is without any logic and substance. The Opposition parties tried to derail our fight against the Corona pandemic by creating negativity against the vaccine and also the world's largest vaccination drive. The Opposition also tried to mislead the nation on the progressive agricultural reform laws.
- The Opposition parties also did not shy away from playing its dirty politics on the issues of national security. It tried to mislead people in surgical strikes

and air strikes and also tried to demoralise our armed forces. The Opposition also tried to mislead the nation on the Ladakh and Doklam issue, while they played a highly negative and irresponsible role in the Rafael issue. The only motive and aim of the highly negative Opposition is to put brakes on important reforms and to mislead the nation on these issues. It is very unfortunate that in the garb of criticising Prime Minister Shri Narendra Modi ji and the BJP, the Opposition parties started opposing the nation, it always took an anti-India stand and they tried to defame and malign India internationally.

- In the BJP ruled states politics and governance is happening on the basis of our ideology of 'Sabka Saath, Sabka Vikas, Sabka Vishwas and Sabka Prayas'. It is the politics of development and growth which is happening in all BJP-ruled states, while the Opposition ruled states are plagued by politics of casteism, communalism, appeasement, nepotism and corruption.
- The competition among the BJP-ruled states is for the number of houses built for the poor, growth in rural areas and villages, welfare of the poor, road construction and infrastructure development, opening of medical colleges and strengthening of health infrastructure, administration of vaccines and construction of toilets etc. But in the Opposition-ruled states the competition is on the issues of corruption, politics of appeasement, loot of rations and money meant for the poor, and promotion of family based politics.
- During the Corona pandemic all the political parties had gone into isolation and their leaders and workers were in quarantine. It was only the BJP's crores of workers who, guided by the clarion call of Prime Minister Shri Narendra Modi, helped the sick and needy people without caring for their own health. This highlights the social commitment of the BJP and its crores of workers.
- The BJP is fighting a tough ideological battle in West Bengal, Kerala and Jammu & Kashmir. The

In the BJP ruled states politics and governance is happening on the basis of our ideology of 'Sabka Saath, Sabka Vikas, Sabka Vishwas and Sabka Prayas'

BJP workers have steadfastly held on to their ideology and principles in these states despite a highly hostile political environment. We are constantly moving forward in these states. I thank and congratulate all the party workers and leaders for waging a decisive and ideological battle in these states. Days are not far when we will emerge victorious in these states.

- We have to work hard in the states where we have so far not been successful. We have to win people's trust and get their blessings. We have to strengthen our booths in these states. In BJP-ruled states we have to strengthen all those booths where we are weak. We have identified 50,000 such booths where we have to work very hard and we have to strengthen our organisational structure in these booths.
- The Northeast is struggling due to massive floods while Manipur has suffered major loss due to landslides. I direct all the party workers to assist the local administration in the flood-affected areas in rescue and relief operations. Our governments are also carrying out rescue and relief operations on a massive scale. The BJP governments and the party organisation are working together to give relief to affected people and to ensure their speedy rehabilitation.
- The BJP is the world's largest political organization. Under the leadership and guidance of Prime Minister Shri Narendra Modi we are trying to give the BJP a new dimension at the ward level. And for this we have started a novel initiative -- 'Know BJP'. I have so far interacted with the Heads of Missions of over 40 nations under this initiative. The Prime Minister of Nepal, the Foreign Minister of Singapore and the third most important leader of the ruling party in Vietnam had visited the BJP headquarters where they spent time and got to know about the BJP, its organisational structure, its work culture and its history. All this underlines the changing perception of India in the global arena under the leadership of Prime Minister Shri Narendra Modi. ■

# 'THE NEXT DECADE IS INDIA'S DECADE'

## ECONOMIC AND GARIB KALYAN RESOLUTION

**U**nion Defence Minister Shri Rajnath Singh moved the Economic and Garib Kalyan Resolution at the BJP National Executive meeting held in Hyderabad, Telangana on 02-03 July, 2022 and it was seconded by Union Minister of Textiles, Commerce and Industry & Minister of Consumer Affairs, Food and Public Distribution Shri Piyush Goyal and Haryana Chief Minister Shri Manohar Lal Khattar.

Expressing great satisfaction over the last eight years' governance under the BJP-led NDA government the Resolution said India has been marching ahead under the dynamic leadership of PM Shri Narendra Modi on the key principles of 'Sabka Sath and Sabka Vikas'. It pointed out that the key drivers of the growth story of India, the sixth-largest economy in the world are and will continue to be, the Prime Minister's vision of Atma-Nirbharata and Garib Kalyan.

With an optimistic note it further said that the next decade is India's decade and its story will not be complete without 'Atma Nirbharta'. In becoming an economic powerhouse, the PM's commitment to uplift the poor of the country will play a key role.

It concluded that both the Government and the Bharatiya Janata Party will dedicate all their efforts and energy to reclaim Indian economy's rightful place in the comity of nations. Here, we are publishing the full text of the Economic and Garib Kalyan Resolution:

Over the last eight years of the government under the Bharatiya Janata Party-led National Democratic Alliance with Prime Minister Shri Narendra Modi at the helm, India has been marching ahead on the key principles of 'Sabka Sath and Sabka Vikas'. The key drivers of the growth story of India, the sixth-largest economy in the world, are, and will continue to be, the Prime Minister's vision of Atma-Nirbharata and Garib Kalyan. India has indeed shown speedy growth since PM Shri Narendra Modi came to power in 2014. The massive growth achieved in these eight years was the outcome of the Prime Minister's vision. We remember his victory speech barely a few hours after the sweeping win in the 2014 general election.

One thing that stood was his promise for inclusive growth. He knew he had to make structural changes in the delivery system. During the Congress regime the schemes and policies were mostly on paper. There were holes in its delivery system. Pilferage was common. But Shri Modi's government implemented policies and programmes on the ground. His delivery system included last mile delivery. The secret of this success is the Prime Minister's mantra of 'Sab Ka Sath, Sab Ka Vikas', growth for all. The government schemes and programmes during the Congress regime were selective, they were often targeted at selected groups or caste who were their vote bank. The BJP government under the leadership of Shri

Modi ensured government schemes are meant for all.

Another paradigm shift in PM Modi's thinking was to make India self-reliant or Atma Nirbhar.

Prime Minister Modi exuded confidence that we have the resources, we have the manpower, we have the best talent in the world. We will make the best products; improve the quality of 'Made in India' products and even more. The concept of Prime Minister Shri Modi's self-reliant India is based on 'Vasudhaiv Kutumbakam'. - when India talks about self-reliance, it does not advocate for a self-centred system. In India's self-reliance, there is also concern for the happiness, cooperation and peace for the whole world.

### **FIVE AREAS HAVE BEEN CHOSEN BY PRIME MINISTER SHRI MODI FOR PUSHING INDIA TOWARDS THE SELF-RELIANCE GOALS:**

- **Economy** – An economy that brings quantum jump, not incremental change.
- **Infrastructure** – An infrastructure that becomes the hallmark of modern India to attract foreign investments
- **System** – A system that involves adopting modern technology and increasing the use of digital technology in the society.
- **Demography** – Making best use of our Its vibrant and young demography.
- **Demand** – We have a large domestic market and demand segment, which needs to be tapped to its full potential.

The concept of Prime Minister Shri Modi's self-reliant India is based on 'Vasudhaiv Kutumbakam'. - when India talks about self-reliance, it does not advocate for a self-centred system

### **COVID RELIEF AND RECOVERY**

Soon after assuming office, along with the entire world during the Covid-19 pandemic, India faced unprecedented challenges of a global pandemic. India not only succeeded in safeguarding its own people and extending a helping hand to almost 100 nations, but also emerged stronger. Efficient administration, well-calibrated policy responses and an unwavering commitment to serve 1.35 billion citizens underpinned the success.

The vaccine production and rollout program is a remarkable success story, and India administered

more than 191 crore vaccine doses in 1½ years, Unlike the polio vaccine, for which India had to wait for 30 years after it was discovered abroad, for Covid-19, India not only developed its own indigenous Covid-19 vaccine called Covaxin almost immediately, but also produced together with it, on a partnership basis, Covishield, the vaccine developed abroad. Upholding the government's motto of Vasudaiva Kutumbakam, India exported vaccines to about 100 nations.

Health infrastructure was vital for containing both mortality and morbidity through the pandemic and this infrastructure was ramped up rapidly in the last couple of years. For example, the number of beds in Intensive Care Units (ICU) in the country was increased from 2,168 in March 2020 to 1.39 lakh by January 2022. During the same reference period, with similar increases in number of isolation beds, oxygen-supported beds, Pressure Swing Absorption (PSA) plants (oxygen plants) across the country, and manufacturing capacity for Personal Protective Equipment (PPE) kit, it was a robust transformation of the country's health infrastructure.

### **ECONOMIC REVIVAL – INITIATIVES AND MACRO-OUTLOOK**

Covid-19 disrupted economic activity not only in India but also across almost all the countries in the world. Fears of infection affected labour force participation as well as employers' willingness to engage workers. In many cases, to contain the spread of infection, lockdowns imposed by governments affected economic activity. In an interconnected world, output disruption in one location broke down the supply-chain and affected economic activity in a host of locations. With efficient management of the pandemic, rate of growth of GDP at constant prices in India which had gone down to -6.6 per cent in 2020-21, grew by an estimated 8.7 per cent in 2021-22. There are palpable signs of a resurgence in the housing market.

Since the onset of the pandemic and Ukraine war, our government has taken many extraordinary measures. We have launched schemes and taken measures to benefit ordinary men and women of this

great country directly. We have taken steps to give a leg up to small businesses

And of course all this needed a big injection of funds. Our PM has safeguarded the future of this country by launching some long term schemes. We salute the wisdom and farsightedness of our PM who has ensured that we do not spend beyond our means and do not punch above our weight to ensure that both Debt/GDP ratio and path to fiscal prudence remains within the stated parameters of our government.

Many have cherished the goal of India's buoyant export performance. There are signs of this goal being achieved. Services exports in 2021-22 grew by 21.3 per cent to achieve the target of \$250 billion. India's overall exports (merchandise and services combined) in 2021-22 increased by 34.5 per cent to reach \$669.65 billion. The value of iron and steel exports increased from \$7.64 billion in 2013-2014 to \$19.25 billion in 2021-2022. Similarly, export of electronic goods grew by 88 per cent in 8 years since 2013-14, that of tractors grew by 72 per cent and of engineering goods by 49 per cent. Exports of mobile telephones increased from around Rs. 1,300 crore in 2017-18 to about Rs. 43,000 crore in 2021-22.

The government has maintained growth with strong macroeconomic fundamentals and this soundness is adequately reflected in investor sentiments. There have been large increases in the number of registered investors. Foreign investors, like their domestic counterparts, have expressed their confidence by investing increasingly large sums. FDI inflows touched a high of \$83.5 billion in 2021-22. Prior to 2014, the previous high was \$36.5 billion in 2013-14.

Credit extended by Scheduled Commercial Banks (SCBs) grew by 8.6 per cent in 2021-22. The recovery of credit growth to pre-pandemic levels is an encouraging sign and is likely to accelerate overall economic growth. Some schemes have been launched keeping in mind future opportunities and building of 'New India'. Some scheme such as The Production Linked Incentive(PLI) scheme that pushes job-intensive manufacturing, It propels manufacturing in various sectors like large-scale electronics, solar,

textile, LED light and automotive products. Scheme worth Rs. 1.97 lakh crore for 13 key sectors is being implemented with a large potential to create jobs in the manufacturing sector. Our government has acknowledged the dependency on global players for supply of micro chips. We are pleased to mention that PM Modi has taken initiative and given strong push for manufacturing of micro chip to meet the growing demand of IT without depending on import.

Under the Emergency Credit Line Guarantee Scheme (ECLGS) for Medium, Small and Micro Enterprises (MSMEs), the government sanctioned Rs. 3.19 lakh crore. Rs. 1.8 lakh crore worth of assets were saved from becoming non-performing assets (NPAs). This support by the government saved 13.5 lakh MSMEs in the country which are vital for India's industrial growth. The scheme not only provided financial cushioning to small and medium-scale enterprises but also saved 1.5 crores of jobs resulting in saving livelihood of nearly 6 crore people. The Reserve Bank of India in its Financial Stability Report of June 2022 said that the gross NPA ratio in March 2022 fell to a six-year low of 5.9 per cent.

Another project that looks far into the future is PM GatiShakti - National Master Plan for Multi-modal Connectivity. This Rs. 100 lakh crore multi-modal connectivity plan will provide integrated and seamless connectivity for the movement of people, goods and services from one mode of transport to another. It will facilitate the last mile connectivity of infrastructure and also reduce travel time for people. The sheer scale of this project means that thousands of jobs will be created in the infrastructure sector.

The Prime Minister, having reviewed the human resources in all government departments, has promised to create 10 lakh government jobs. Government announcement to recruit in "mission mode" will help job seekers in sectors such as defence, railways and revenue. The Agnipath scheme proposed by the Government will give a unique opportunity to the youth not only to fulfil their dream of joining the armed forces and serving the nation, but also empower, discipline and skill them.

**The Prime Minister, having reviewed the human resources in all government departments, has promised to create 10 lakh government jobs**

The Government has maintained reasonable price stability in the last eight years. Recently, there has been upward pressure on prices of commodities and crude oil due to disruption in supply chain globally. It has resulted in both Consumer Price Index (CPI) and Wholesale Price Index (WPI) going up compared to previous months. The western world is experiencing the highest inflation in last 40 year. Despite high inflation in other countries and the geostrategic uncertainties, our Government has taken measures including repeatedly reducing the petrol and diesel prices to maintain reasonable price stability. Inflation under Modi government is much lower than what India has seen during UPA regime when it has exceeded even 11%.

Goods and Services Tax (GST), introduced with the idea of “One Nation, One Market, One Tax,” has been acclaimed as the largest indirect tax reform in the history of India. Introduced to have a uniform tax on the supply of goods and services across the country, GST eliminated the multiplicity and cascading effects of taxes. It is a good measure of the economy’s growth and it is a matter of some satisfaction that GST collections exceeded Rs. 1.68 lakh crore in April 2022. Significant efforts in audits and analytics have also led to a drive against tax evaders, inculcating a tax compliance culture. Going forward, it will be important to maintain the momentum and improve the tax compliance culture.

Goods and Services Tax (GST), introduced with the idea of “One Nation, One Market, One Tax,” has been acclaimed as the largest indirect tax reform in the history of India

## POVERTY ALLEVIATION

Pradhan Mantri Garib Kalyan Anna Yojana (PMGKAY) was one of the largest national poverty alleviation schemes started in the backdrop of COVID. Under this scheme 80 crore people were given free ration for 25 months. The scheme has been under implementation since April 2020 and is the largest food security program in the world. Under the scheme, the government has spent Rs. 2.60 lakh crore so far and another Rs. 80,000 crores will be spent over the next 6 months until September 2022. PMGKAY has played a pivotal role in reducing extreme poverty, a role which has been recognised even by the International

Monetary Fund (IMF) and World Bank.

## UPLIFT THE FARMING COMMUNITY AND IMPROVE THEIR EASE OF LIVING

Kisan Samman Nidhi is a game changer - About 1.82 lakh crores given to 11.78 crore farmers in 10 installments so far directly into their accounts

In the five years from 2009 to 2014 (Manmohan government), there was a marginal increase of 8.5 percent in the agriculture budget.

At the same time, after the coming of Shri Narendra Modi government, between 2014 and 2019, about 38 percent in the agriculture budget has increased. This figure is a proof of the farmer-friendly intention, policy and leadership of the Modi government.

## ECONOMIC BENEFITS OF SOCIAL SECURITY SCHEMES

Over decades, governments have been struggling with half-hearted approaches to addressing complex distributive justice and intergenerational social security problems. The BJP government has made policy-making inherently inclusive of the poorest sections of our society. At national and international forums, the Prime Minister has been the first to focus sharply on issues such as sanitation which is central to the well-being of the rural population. The design and effective implementation of nationwide schemes like Swachh Bharat, Ujjwala, PM Awas Yojna, Saubhagya, and Jal Jeevan Mission have ensured that the lives of millions of poor people have been radically transformed. Their ease of living has improved manifold.

Jal Jeevan Mission aims to install tapped water in all households. The mission is aggressively working for the betterment of ‘quality of life’ and enhanced ‘ease of living’ for women who spend long, tiresome hours every day collecting water. 83 districts in the country have already become ‘Har Ghar Jal’ districts. Households with tap water connections have exponentially increased in the past two years. They have risen to over 9 crore which is 47.19 per cent of households an increase close to 17 per cent. This mission will be completed by 2024 when all the

households in the country will have safe tapped water.

Pradhan Mantri Ujjwala Yojana has provided concessional LPG connections, thus according women greater dignity by way of ownership of an amenity. The Ujjwala Yojana affords women a smoke-free environment and alleviates the drudgery of collecting fuelwood, saving them time and health issues. Lower subsidy allocation for LPG in Budget 2022-23 is a heartening indication of a near 99 per cent saturation of LPG penetration in India. These are long strides towards decreasing the carbon intensity of the country as announced by the Prime Minister in the Climate Change Conference (COP26) at Glasgow.

Social welfare schemes like Ayushman Bharat and Swachh Bharat Abhiyan keep households from falling into the trap of health poverty. This accomplishment goes unnoticed as it's a product of prevention rather than cure. Ayushman Bharat guarantees quality medical care to the poorest 500 million Indians with a health insurance coverage of Rs 5 lakh per family annually.

Social welfare schemes like Ayushman Bharat and Swachh Bharat Abhiyan keep households from falling into the trap of health poverty

## FINANCIAL AND DIGITAL INCLUSIVITY

Financial and digital inclusivity were addressed early with the launch of the Pradhan Mantri Jan Dhan Yojana and Digital India. Over 55 per cent of all Jan Dhan bank accounts are held by women, benefiting over 24.42 crore women. A study conducted by NABARD showed that, out of 11 million bank-linked self-help groups, exclusive women self-help groups are 9.7 million. With control over their own bank accounts, these women have access to an array of banking tools.

The JAM trinity that is Jan Dhan account, Aadhaar and mobile together, is providing tremendous financial autonomy to women. These robust and nationally executed policies paid off in times of dire need like the COVID-19. Rs 30,944 crore (Rs. 500 over three months) was disbursed to women as Direct Benefit Transfers through Jan Dhan accounts. The JAM trinity has also ensured that benefits from more than 400 government schemes are transferred directly to the beneficiaries' accounts without any intermediaries and

concomitant leakages. Furthermore, as part of the Pradhan Mantri Garib Kalyan Package, more than 14 crores of free LPG refills were provided to the Prime Minister Ujjwala Yojana beneficiaries during COVID-19. India has experienced a silent digital revolution in terms of explosion in real-time transaction. In 2021, the number of real-time transactions 48.6 billion in India were almost three times that of China, and almost seven-times greater than the combined real-time payments in US, Canada, UK, France and Germany.

## SUPPORTING ENTREPRENEURSHIP

PM-SVANidhi is a unique scheme to help India's grassroots entrepreneurial spirit. Under the scheme, loans were sanctioned to 31.9 lakh street vendors. Rs. 30,000 crore were provided to Scheduled Castes (SC), Scheduled Tribe (ST) and women through Stand-up India scheme. Under the Mudra scheme, approximately 35 crores loans have been sanctioned.

The Indian start-up ecosystem has livened up with improvements in ease of doing business and unleashing of the inherent Indian entrepreneurial talents. This is manifest in the large number of Indian companies entering the coveted billion-dollar unicorn category.

## CONCLUSION

The next decade is India's decade and its story will not be complete without Atma Nirbharta. To become an economic powerhouse, the PM's commitment to uplift the poor of the country will play a key role. The Covid-19 pandemic wreaked havoc across the globe and slowed down the global economy. All advanced economies are struggling to get back on the growth trajectory. India, because of its stellar management of the pandemic and well-thought-out policy response, is well on its path to recovery. According to IMF projections, India will grow by 8.2 per cent in the coming fiscal year.

This is the most promising growth outlook among all economies, including emerging economies. Both the Government and the Bharatiya Janata Party will dedicate all their efforts and energy to reclaim Indian economy's rightful place in the comity of nations. ■

## RESOLUTION-II

### BJP NATIONAL EXECUTIVE MEETING-2022

# 'INCREDIBLE ACHIEVEMENTS, UNIMAGINABLE TRANSFORMATION IN LAST EIGHT YEARS'

## POLITICAL RESOLUTION

**T**he Political Resolution was moved by Union Home Minister Shri Amit Shah at the BJP National Executive meeting 2022 in Hyderabad, Telangana on 02-03 July, 2022. This resolution was seconded by Karnataka Chief Minister Shri Basavaraj Somappa Bommai and Assam Chief Minister Shri Himanta Biswa Sarma. The Political Resolution highlighted that how India today; is imbued with a newfound confidence, making it emerge as a leading force globally. Whether it is the COVID-19 pandemic, any natural calamity or even war, India is always ready to extend help to countries in crisis.

The National Executive also commended the Hon'ble Prime Minister Shri Narendra Modi for his visionary and dynamic leadership in providing policies dedicated to the welfare of the poor, oppressed, exploited and deprived sections of society while focusing on the empowerment of women and youth, many innovative programmes were launched, transforming their lives in a major way. We are publishing the Political Resolution for our esteemed readers:

A nation brimming with self-confidence is moving rapidly towards the goals of 'Ek Bharat, Shreshtha Bharat'. India's last eight years have been filled with incredible achievements, unimaginable transformation, and incredible performance at all levels. Today, India is imbued with a newfound confidence, making it emerge as a leading force globally. Whether it is the COVID-19 pandemic, any natural calamity or even war, India is always ready to extend help to countries in crisis. The way India helped other countries during the COVID-19 pandemic has been applauded and acknowledged all over the world.

The nation started trading on the path of good governance and development as the politics of

performance gained legitimacy, resulting in huge mandates even in state elections across the country. The pledge towards building 'Ek Bharat, Shreshtha Bharat' started showing results, and the mantra of 'Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas' started inspiring everyone to contribute to the nation building process. A massive churning can be seen on the ground. The BJP-led NDA has got a mandate from election to election and people have given an even bigger mandate in 2019. A confident nation started taking huge strides towards its destiny.

As Prime Minister Shri Narendra Modi committed his government to the welfare of the poor, oppressed, exploited, and deprived sections of society while focusing on the empowerment of women and youth,

many innovative programmes were launched, transforming their lives in a major way. Rural life, agriculture, farmers and labourers became the core of these welfare programmes, aiming to make them valuable partners in the onward march of the nation. Even during the COVID-19 pandemic, the Garib Kalyan Anna Yojana was launched, ensuring food security for the poorest of the poor while extending help to women, divyaangs, senior citizens, and migrant labourers.

One of the most notable achievements was to launch 'Made in India' vaccines and make them available to everyone for free, which helped in containing the pandemic in a big way. In the face of every challenge, India was able to find a solution under the strong and dynamic leadership of Prime Minister Shri Narendra Modi. From the welfare of the poorest of the poor to the emergence of a strong and confident India in every field – be it agriculture, renewable energy, climate change, start-ups, defence or space – India is making its presence felt everywhere. As the path for an 'Aatmnirbhar Bharat' is being paved, a 'New India' is emerging.

One of the most notable achievements was to launch 'Made in India' vaccines and make them available to everyone for free, which helped in containing the pandemic in a big way

## **BJP GETTING HUGE SUPPORT ACROSS THE COUNTRY**

The huge support of the people across India has once again been reflected in the massive mandate that the people have given to the BJP in the recently held assembly elections. In the four out of five states that went to the polls, the BJP has not only emerged victorious but also scripted a history of its governments getting re-elected after successfully completing their terms. In Uttar Pradesh, Uttarakhand, Manipur, and Goa, people have re-elected full-majority BJP governments, ending an era of political instability in these states.

For the first time in decades in Uttar Pradesh, the same party government was reelected and a chief minister got a people's positive mandate after completing the full term, that too with more than two-thirds majority. In Uttarakhand, people broke the trend of voting differently every five years and strongly

supported the BJP for the second consecutive term. In Manipur, the BJP government was re-elected with a comfortable majority, and in Goa, the BJP has got the required numbers to form the government in the state.

From Panchayat to Parliament, from West to East and from North to South, the BJP is getting the blessings of the people everywhere. Just a few days ago, the BJP set a new record by winning all 26 seats in the Karbi Anglong Autonomous District Council of Assam. Similarly, the BJP-JJP alliance has won 25 seats out of 46 municipal corporation elections in Haryana. In the Tamil Nadu local body elections too, the BJP got an unexpected victory in 308 seats, winning 22 seats in municipal elections, 56 in municipalities, and 230 in district panchayats, and the BJP has become the third largest party in Tamil Nadu. People have given their blessings to the BJP in the

Legislative Council elections of Bihar, Uttar Pradesh, Karnataka and Maharashtra. In the recent Rajya Sabha elections also, the BJP has had more success than expected. Along with this, the BJP has had huge success in the Lok Sabha and Assembly by-elections as well.

The overwhelming blessings which the BJP continues to receive from the people under the dynamic and charismatic leadership of Prime Minister Shri Narendra Modi is a new phenomenon in Indian politics, defying the three decades of political instability in the country. The massive win in these four geographically and demographically distinct states shows that the politics of good governance, development, and performance has now created a lasting niche in the heart of Indian politics.

## **HISTORIC DECISION OF THE SUPREME COURT**

With the historic decision of the Supreme Court on the Gujarat riots, the dictum of 'Satyamev Jayate' has once again proven to be true. It is now fully established that attempts were made to maliciously target the then Chief Minister of the state, Shri Narendra Modi, in the Gujarat riots on the basis of a political conspiracy. As part of the vendetta politics of the

Congress-led opposition, some so-called NGOs and 'intellectuals' and even a section of the foreign-run media, forming a complete 'ecosystem' were the part of the conspiracy. While enduring false allegations, baseless charges and malicious propaganda for years, he never let his faith in the Indian Constitution, judicial process and judicial system of the country be shaken, and finally he came out unscathed from all kinds of ordeals. The way the Hon'ble Prime Minister has demonstrated political tolerance, maturity, large-heartedness and faith in democracy and the constitution for years is an example for Indian social life. For this, the BJP National Executive salutes him and extends its heartfelt greetings to him.

It should be noted that the Hon'ble Prime Minister previously came out clean from all levels of court judgments—from district to high court and now Supreme Court. This decision of the Hon'ble Supreme Court has also exposed a large political conspiracy against the Hon'ble Prime Minister, as the Hon'ble Supreme Court has ordered strict legal action against these conspirators. The Bharatiya Janata Party wholeheartedly welcomes this decision of the Supreme Court and supports strict legal action against the guilty. Simultaneously, this executive strongly condemns such conspiratorial vendetta politics and demands that Congress and its allies immediately apologise to the entire nation for their complicity in this heinous conspiracy.

### **NEGATIVE POLITICS OF CONGRESS LED OPPOSITION**

It is extremely unfortunate that the parties that were in power for years are today not playing the role of a constructive opposition as envisaged under the Constitution of India and are continuously violating democratic norms. To serve its politically vested interests, it is resorting to the politics of lies and deception. It seems that it neither has faith in the Constitution of India, nor has faith in the people of the country, nor does it have faith in democratic values. The Congress and its allies are deeply immersed in the politics of dynasty, casteism, and regionalism

and are victims of ideological, opportunistic, and corrupt political culture. They want to stop the pace of development of the country by opposing every constructive step of Hon'ble Prime Minister Shri Narendra Modi, blocking the laws passed by Parliament whilebacking the politics of mob rule on the streets. This is the reason why the Congress led opposition is continuously losing the trust of the people.

While the nation was unitedly facing the challenges of the pandemic, some opposition parties were busy scoring political points through false propaganda and baseless campaigns. The nation will never forget the way the Congress and other opposition parties tried to break the morale of the nation by instilling fear, suspicion, and negativity in the hearts of people by questioning the nation's capability and by maligning "Made in India" vaccines. Whenever

While the nation was unitedly facing the challenges of the pandemic, some opposition parties were busy scoring political points through false propaganda and baseless campaigns

there was any crisis in the country or any action taken in the national interest, the Congress and its allies raised questions. Whether it was the surgical strike by the army, air strike or any moment of bravery and valour of the Indian army on the border, Congress and its allies are always seen standing

on opposite poles. Today, when the Congress President and its former President are questioned by the investigating agencies, the entire Congress opposes it by taking to the streets, but if there is any issue of national interest, the Congress party is seen opposing the nation itself. Due to dynastic politics, Congress has become synonymous with unprincipled, opportunistic, and corrupt politics in the country. There is no doubt that a party that does not practise internal democracy can never understand the real meaning of democracy. In desperation, Congress is pushing itself to its own destruction. The Congress today stands with the 'tukde-tukde gang' by collaborating with the divisive elements in the country and wants to spread confusion in the country. While Pakistan takes recourse to Congress leaders' statements in its statements against India, Congress leaders do not shy away from referring to Kashmir as a matter of the United Nations. Many of

his statements provoke other countries to interfere in India's internal affairs and raise questions about India's sovereignty.

It is extremely unfortunate that in many opposition-ruled states the 'perpetually pessimistic' opposition has been opposing implementation of welfare schemes of the Central Government like Ayushman Yojana, thus depriving the citizenry of the country of the benefits accruing to them. Today, dynastic politics has become a threat to the parties functioning on principles and high ideals. It is highly unfortunate that many political parties of the country have also surrendered to the anti-democratic dynastic politics, casteism and regionalism.

## **EMPOWERMENT AND REPRESENTATION**

With the nomination of Shri Ram Nath Kovind for the post of President in the year 2017 and now with the nomination of Smt. Draupadi Murmu, Prime Minister Shri Narendra Modi has proved that the BJP is concerned about political representation and empowerment of all weaker and backward communities, including Scheduled Castes and Scheduled Tribes in the country.

The BJP-led NDA alliance has honoured the entire women and tribal community of the country by announcing Smt. Draupadi Murmu's candidature for the top post of the country and has strengthened the principle of all-inclusive politics in the country. While discharging many responsibilities in public life, Smt. Draupadi Murmu, who had to struggle against poverty and adversity in her life, by serving the poor, deprived, oppressed, and neglected, represents an excellent example to be emulated in society. She is not only a symbol of women power, but also represents the oppressed of this country. Her administrative experience, sensitivity, and efficiency will surely adorn the President's post.

This National Executive of the Bharatiya Janata Party appeals to all the political parties of the country, all the members of the electoral college of the Presidential elections, to vote unitedly in favour of Smt. Draupadi Murmu and support the country's

It is highly unfortunate that many political parties of the country have also surrendered to the anti-democratic dynastic politics, casteism and regionalism

first woman from the Scheduled Tribes community to be elected as the President of India. This is a historic occasion when all of us are getting the privilege of electing a woman President from the tribal community of the country for the first time. It is a proud moment for the entire nation. Let everyone come forward to make an important contribution in this yagya.

## **INCLUSIVE GOVERNANCE AND WELFARE OF THE POOR**

As BJP Karyakartas observed, 'Samajik Nyay Pakhwada', the resolve to serve the poorest of the poor, deprived, exploited, and marginalised sections of society got reinforced through various programmes across the nation. The BJP has always been committed to the principles of 'Antyodaya' and believes that in the upliftment of the last man in society lies the development of the entire nation.

A large number of innovative schemes under the visionary and charismatic leadership of Prime Minister Shri Narendra Modi are transforming the lives of the poorest of the poor, opening new avenues of opportunities for the marginalised and deprived, making life easier for women,

youth, tribals and scheduled caste people while assuring a life of dignity and equity for every section of society.

The last eight years have seen a huge jump in electricity access, sanitation access, access to drinking water, clean cooking fuel, bank accounts and mobile phones, enhancing the 'Ease of Living' of the masses. The reduction of extreme poverty in the nation, even amid the pandemic, speaks volumes about the pro-poor policies of the Modi government. A large number of schemes like Ujjwala, PM Jan Dhan Yojana, Ayushman Bharat Yojana, PM Kisan Samman Nidhi, Crop Insurance Scheme, MSP 1.5 time of the investment, record procurement under MSP, bringing new crops under MSP, Soil Health Card, Neem Coated Urea, Garib Kalyan Yojana, PM Awas, and Jal Jeevan Mission are transforming the lives of the poorest of the poor, bringing huge relief to SC, ST, OBCs, women, youth, and the deprived

sections of the society.

If these achievements are seen in the context of the two years of the COVID-19 pandemic, which led to an unprecedented global crisis at various levels, then these achievements appear to be extraordinary and amazing. It was a challenge that appeared insurmountable in India, but under the strong and determined leadership of Prime Minister Shri Narendra Modi, the nation not only tried to convert these challenges into opportunities but also led from the front in helping many needy countries across the world. The entire world witnessed India's firm resolve to fight the crisis when, for the first time, "Made in India" vaccines were produced in large quantities in India itself within a record time. It resulted in the success of the world's largest and fastest vaccination programme, which was able to provide more than 95% of India's huge population with at least one dose of vaccine within months. The opposition, which claimed that it would take 15 years to vaccinate everyone in India, is now speechless after 200 Crore doses have been administered in less than a year and a half. Not only this, these "Made in India" vaccines were made available to other

needy countries, making India a leading country in the fight against the pandemic. The free ration, various assistance to the vulnerable section of the society, the Seva-Hi-Sangathan programme by millions of dedicated BJP karyakartas, the selfless commitment of doctors, nurses, paramedics, administrative staff, and Corona warriors, and the call of "Aatmnirbhar Bharat" by the PM, launching innumerable initiatives during the COVID-19 pandemic, has further strengthened the faith of people in the indefatigable leadership of PM Shri Narendra Modi and the selfless commitment of the BJP karyakartas. The people of India are not only proud of these achievements, but they are also confident of meeting any challenges that come their way as they strive for a brighter future.

## INDIA EMERGES ON THE WORLD FORUM

The recent visit of Prime Minister Shri Narendra Modi to Germany, Denmark, France, Japan, and UAE;

participation in the Indo-Nordic Summit, QUAD, and G-7 has not only broken new ground but also shows India's willingness to proactively forge partnerships in new areas. The new dynamism currently seen in India's foreign policy reflects its commitment to shouldering responsibilities on global issues while creating partnerships with various countries at different levels. It represents an India booming with newfound confidence under the visionary leadership of Prime Minister Shri Narendra Modi as it has come out of cold war hangovers by engaging with every country without reservations. The partnership with these European nations is set to boost India's prospects in various fields in the coming days while meeting the requirements of these partnering countries.

In the last two years of the COVID-19 pandemic, India has emerged as a major global leader. It not only successfully faced the challenges of the pandemic but actively helped other needy countries in their time of crisis by providing medicines, PPE kits, oxygen, vaccines, and medical equipment. The manner in which different countries appealed to Prime Minister Shri Narendra Modi to take the initiative in resolving the crisis due to the Russia-Ukraine war

and the way Russia-Ukraine gave a window during the war so as to facilitate the evacuation of Indians from the war zones shows the growing stature of India at the global level. Apart from helping other countries in their time of crisis, whether be it the COVID-19 pandemic or any natural calamity, India has made five commitments at COP 26 on climate change and is working actively to fulfil those commitments. India's initiative to establish an 'International Solar Alliance' is winning accolades all over the world. Today, India, under the dynamic leadership of Prime Minister Shri Narendra Modi, is sharing global responsibilities and emerging as a new hope for the world. The foreign visits made by Shri Narendra Modi ji have strengthened the global standing of India and have acted as a catalyst amongst the Indian diaspora. There is a sense of reignited pride amongst the Indian community and they feel further attached to the chord of "Indianness" that binds us all. There

Innumerable initiatives during the COVID-19 pandemic, has further strengthened the faith of people in the indefatigable leadership of PM Shri Narendra Modi

is no doubt that the agreements signed with these nations will further build an enduring partnership with Europe while opening new areas of opportunity for all the partnering countries.

## **PLEDGE OF A 'NEW INDIA'**

The nation still remembers the misrule of Congress led UPA government at the centre when corruption, loot and scam had become the order of the day. The term, 'policy paralysis' was in vogue, with directionless governance and a leaderless government at the helm of affairs. The scenario throughout the country was filled with pessimism and hopelessness. Amid such a scenario, the nation gave a powerful mandate to the BJP with Shri Narendra Modi as prime minister of the country. Today, after eight years, the nation under the charismatic and visionary leadership of Prime Minister Shri Narendra Modi is scaling new heights every day.

It is due to the untiring efforts of the Prime Minister that today, through programmes like 'Pragati', various ongoing projects in the country are being reviewed and speeded up, and projects that have been pending for years are being completed. Unlike the working style of the previous governments, many projects have been completed before their scheduled time. We can see the result of this in the speedy execution of projects like Bogibeel Bridge, Eastern and Western Peripheral Expressway, and Atal Tunnel, which have been completed under the leadership of Prime Minister Shri Narendra Modi. The concept of 'Cooperative Federalism' has been realised by establishing continuous dialogue with all the chief ministers so that development and good governance in the country become accessible to the people. Its most effective result can be seen in the success achieved in controlling the corona pandemic across the country. Even the Padma awards have been completely democratised, and the hidden talents and those doing unique work in the interest of the country have been recognised and honoured all over the country.

The result of the new work culture of 'New India'

After eight years, the nation under the charismatic and visionary leadership of Prime Minister Shri Narendra Modi is scaling new heights every day

was that the nation adopted a major tax reform like GST. By coordinating between different states, today the GST Council is setting an example of healthy democratic tradition in the whole world by taking every decision unanimously. Today, GST has been fully adopted by the people of the country, the result of which we can see in the record tax collection every month. This has strengthened the country's economy, freed the people from the mess of many types of taxes, and facilitated the smoothening of inter-state trade. Under this, the compensation amount of GST to the states has been continuously paid by the centre even during the COVID-19 pandemic. Along with the removal of Article 370, the enactment of the Citizenship Amendment Act, making stringent laws on triple talaq, implementation of 'One Rank-One Pension', establishment of the National War Memorial and National Police Memorial, Bodo and Bru-Reang Pact and many other historic decisions; the Prime Minister Gatishakti, PLI, Green Hydrogen, Promotion of Organic Farming, Improvement in work culture, Digital India Mission, Khelo India to give special encouragement to sports and Agneepath are paving the way for a 'New

India'.

India'.

## **CALL TO THE NATION**

As a confident India rises on the strength of its own and with the resolve to realise the dream of an 'Aatmnirbhar Bharat', a change with a rare kind of dynamism can be seen everywhere. An India that can face the COVID-19 pandemic for two long years without faltering even once while extending a helping hand to other countries is certainly a new phenomenon. An India that can manufacture vaccines, an India that can turn all challenges into opportunities by launching various reforms during a crisis, an India that can provide free rations to 800 million people, care for vulnerable sections of society during a pandemic, and provide free vaccines to all seems impossible to those who witnessed the UPA's misrule just eight years ago. It has been possible under the dynamic and visionary leadership of

Prime Minister Shri Narendra Modi, who has inspired millions of committed BJP karyakartas and selfless people across the country through his tireless efforts. The result is that a new India has emerged, which no longer languishes behind but completes the target before the appointed time. As India realises its inner strength, the goals of 'Aatmnirbhar Bharat' are now not difficult to achieve.

For the development of Maharashtra and the welfare of the people of the state, the Bharatiya Janata Party has supported Shri Eknath Shinde as Chief Minister and Shri Devendra Nath Fadnavis has taken oath as Deputy Chief Minister from the BJP. Due to the opportunistic and unprincipled alliance of 'Maha Vikas Aghadi' in the state, the development of Maharashtra was stopped and the people were facing massive corruption and misgovernance. This step has once again proven that the BJP never craves power but believes in serving the people selflessly and working for their welfare. With the goal of serving the people of Maharashtra under the leadership of Prime Minister Shri Narendra Modi, we will again take the state forward on the path of development and good governance.

After independence, the BJP emerged as the only party that demanded and supported many reforms in the interest of democracy and implemented them whenever given a chance in the government so that the democratic systems of the country could be strengthened even more. As a political party that draws inspiration from the country's glorious past, the BJP is determined to create a 21st century India with strong infrastructure, providing immense opportunities for youth and development of every sector through futuristic policies. Today, the country is moving forward with the positive politics of the Bharatiya Janata Party while defeating the negative politics of the Congress led opposition election after election. The Bharatiya Janata Party calls upon the people of the country to completely defeat the divisive, opportunistic, unprincipled, and corrupt politics of dynasty, casteism, and regionalism and promote development, good governance, and 'politics of performance' even more. Strengthen and unite in favour of an all-inclusive politics of welfare for the poor. ■

VANDEMATARAM!!**

# TAKE COUNTRY FROM APPEASEMENT TO FULFILLMENT: NARENDRA MODI

## PM's CONCLUDING ADDRESS

**T**he two-day National Executive Committee meeting of Bharatiya Janata Party concluded in Hyderabad on 03 July, 2022. Addressing the concluding session of the meeting, Hon'ble Prime Minister Shri Narendra Modi exhorted party leaders and Karyakartas to strive for fulfilling the dream of resurgent India.

Briefing media after the meeting, senior BJP leader Shri Ravi Shankar Prasad referred to various points raised by the Prime Minister in his speech. During his speech Shri Narendra Modi said that the campaign to unite India was initiated by Sardar Patel in Bhagyanagar. Shri Modi told the BJP leaders that their aim should be to take India from "appeasement to fulfilment". The Prime Minister emphasised the need to adopt the path of fulfilment by ending appeasement. We are publishing the highlights of PM's speech for our esteemed readers:

PM Shri Narendra Modi said that the campaign to unite India was initiated by Sardar Patel in Bhagyanagar. "Sardar Vallabhbhai Patel laid the foundation of 'Ek Bharat' (United India) by integrating the region into the Union and it is the BJP's historical obligation to build 'Shreshtha Bharat'".

- Everything that is good in the country belongs to every Indian. The BJP believes in this philosophy and that is why it celebrates leaders like Patel, who was a Congress stalwart and paid tributes to every Prime Minister through a museum dedicated to all previous PMs.
- The Prime Minister also hit back at opposition parties for questioning the BJP's democratic credentials and asked what is the status of democracy within their organisations.
- BJP government has worked for everyone and nearly 200 crore Covid vaccines doses were given to people for free across the country.
- India's exports have surged and the country has received record FDI.
- PM Shri Narendra Modi also called upon party workers to strive to make India "shreshtha" (great) and emphasised on qualities such as restraint, balanced outlook and coordination among them.
- BJP's goal should be to take the country from "tushtikaran" to "triptikaran". "This will lead to 'sabka

vikas'.

- He called for taking out "Sneh Yatra" which, BJP leader Ravi Shankar Prasad said in a press conference, will be aimed at boosting affection and coordination in society by reaching out to different sections of people.
- Taking aim at the opposition, PM Shri Modi said the country was fed up with dynastic politics and dynastic parties and added that it would be difficult for them to survive long.
- Emphasising on the need for party workers to stay connected to people, he said they should not make fun at the parties which are in terminal decline and instead learn from their mistakes.
- Opposition parties are in a very bad shape. We should learn from their state as to what shortcomings and failings caused their fall. They drifted from people and continue to do so. We have to keep ourselves away from the reasons of their decline.
- The Prime Minister asked the party leaders to tap the enormous diversity in the country to bring them into the realm of the BJP with a attitude of pro-People and Pro-good governance.
- Shri Modi appreciated the party cadres especially from states of Telangana, West Bengal and Kerala for their firm resolve to serve in politics despite facing several challenges. ■

## DRAFT PRESS STATEMENT ON TELANGANA

# 'TRS FAILED MISERABLY ON ALL FRONTS IN TELANGANA'

The National Executive meeting of the Bharatiya Janata Party held at Hyderabad, Telangana on 02-03 July, 2022 expressed its deep concern over the severe deterioration across all matrices and indices relating to economic, social, and human development in the state of Telangana. This sordid degeneration that the state has witnessed over the last eight years is unparalleled and the responsibility lies squarely with the current dispensation. We are publishing excerpts of the Draft Press Statement on Telangana:

### BJP SPEARHEADED AN EMOTIONAL MASS MOVEMENT FOR A SEPARATE TELANGANA

The struggle for the separate state of Telangana, like the struggle for the liberation of Hyderabad Samsthan to ensure its merger with the Indian Union, is one of the momentous episodes in the post-independent history of India.

The collective will of the people of Telangana, amply supported by a constructive struggle of the BJP, created a compelling situation which led to the formation of Telangana state in 2014.

The struggle for the separate state of Telangana is inextricably linked to the emotions of the people.

In due appreciation of the struggle and the sacrifices made by the people, the BJP endorsed the demand for a separate state in 2006, when Sri Rajnath Singh was the President of the party. Further, the BJP as a policy has supported Babasaheb Ambedkar's vision of smaller states, as they are amenable to faster development, better administration, and deeper political representation of all communities. A separate Telangana was therefore ripe for development, as has been proved in the case of the formation of other states such as Chhattisgarh, Uttarakhand etc.

It is evident that the separate Telangana movement intensified only after the BJP plunged into it with complete earnestness and sincerity at a national level. Late Smt. Sushma Swaraj, who in Telangana is known as 'chinnamma' held several rallies across Telangana state and, made critical interventions during the parliament to echo the mood of the then state.

It is evident that the BJP was at the forefront of the movement for a separate Telangana state and Telangana became a possibility only due to its proactive and unequivocal support.

### NEELLU, NIDHULU, NIYAMAKALU – UNFULFILLED ASPIRATIONS

Neellu, Nidhulu, Niyamakalu (water, funds, and filling employment vacancies) have been the quintessential strands of the movement both in 1969 and in the second phase that lasted till the formation of Telangana in 2014.

After eight years of the current dispensation, the position of Telangana has become far worse. The BJP did not support the Telangana movement to hand it over to the whims of a family and to enable the family to amass illicit wealth.

The TRS has failed miserably on all the three metrics of the Telangana movement, Neellu, Nidhulu and Niyamakalu (water, funds, and filling employment vacancies). It would not be an exaggeration to state that the people of Telangana feel that they have fallen from the frying pan directly into the fire (penam lo nunchi poyyi loki, Tave se nikle choolhe me gire) under the present dispensation.

### MODERN DAY NIZAM AND HIS RAZAKARS – A NEED FOR A NEW TELANGANA LIBERATION MOVEMENT

During the last eight years Telangana witnessed a brazen and blatant attempt to perpetuate a dynasty.

The power that the son of the Chief Minister enjoys today, over and above other cabinet ministers, speaks for itself. Governance is centered around the family, which obviously leads to rampant corruption.

The law-and-order situation is dismal in the state. The leaders of the ruling party, their partners in power and their siblings involve in heinous crimes. The Police is misused to foist false cases on opposition Parties. MLA's children become Keechakas and a drug culture has been perpetuated due to the lack of proper vigilance. In fact, Telangana has registered the highest number of cases under Protection of Children from Sexual Offences Act (POCSO). As per the latest National Crime Record Bureau, the Crime rate against Women stands at 95.4 per 1 Lakh population and is among the Top-5 in the country and nearly double the national rate of 56.5. Similarly, the Crime rate against children stands at 28.9 per 1 Lakh population and is higher than the national rate of 28.9.

What we see in Telangana is sheer despotism, unbridled nepotism, and brazen arrogance, which the Telangana people have always resisted.

Moreover, when the union government took a policy decision to implement 10% reservation for economically backward classes in appreciation of the fact that poverty has neither class nor caste. It took more than 2.5 years for the Telangana government to notify reservations for Economically weaker sections. Even now the implementation is unsatisfactory and incomplete.

The BJP wanted a Telangana where all the people, especially the youth, would be happy by way of finding opportunities for employment and for the sustenance of lives and livelihoods. However, Telangana during the last eight years has witnessed a complete destruction and decimation of lives and livelihoods.

## **MODI GOVERNMENT'S PROMISE - STANDING SHOULDER TO SHOULDER WITH TELANGANA'S BROTHERS AND SISTERS**

On the other hand, the union government has been making unstinting efforts to develop Telangana,

notwithstanding the callous attitude of the state government. In the spirit of Co-operative Federalism, the 14th Finance Commission and the 15th Finance Commission recommend devolving 42% and 41% of the central taxes to states respectively. As a result, the amount accrued to Telangana and Andhra Pradesh has significantly increased. In the last 9 budgets presented by the Narendra Modi Government between 2014 and 2022, approximately, Rs. 1.30 Lakh crore has been transferred to the state of Telangana. For a comparison of the quantum of change, Telangana region's share was approximately Rs. 30,000 crores between 2009 and 2014 in the undivided state while the state received Rs. 70,000 crores between 2014 and 2019 in the first 5 years of Modi Sarkar. For the development of panchayats in Telangana, Rs.4,320 crore has been sanctioned by the 15th Finance Commission, and Rs. 820 crore was released as a first installment.

The Ramagundam Fertilizer Factory, which had been closed during the Congress regime, was reopened in 2015 by Sri Narendra Modi's government. Shri Narendra Modi's government has allocated Rs. 6,400 crores for the plant.

At the time of the formation of Telangana state in 2014, the total length of national highways was 2,511 KMs, whereas the same has increased to 4,996 KMs, an increase of 2,485 KMs in 2022, an increase of 99%. The Centre will be constructing a 340 KM length of regional ring road outside the outer ring road at a cost of Rs. 8,000 crore.

After the formation of Telangana state, the centre's allocation for railways has increased considerably. The railways took up different projects worth Rs. 31,281 crores in Telangana. In Telangana, during 2014-21, 321 Km sections of new line and doubling projects have been commissioned at an average rate 45.86 km per year. This is 164% more than average commissioning during 2009-14 where 17.4 Km per year was commissioned.

During the COVID-19 period, the Centre freely distributed food-grains to 1.92 crore poor people in Telangana. Close to 25 Lakh metric tons of rice was allocated for free distribution to the residents

Telangana where all the people, especially the youth, would be happy by way of finding opportunities for employment and for the sustenance of lives and livelihoods

of Telangana at a cost of approximately Rs. 9,000 crores. The Centre had helped to the tune of Rs. 433.34 crores in financial assistance to street vendors under the Prime Minister's Swanidhi Scheme.

Under the Swachh Bharat Mission, more than 31.43 lakh households have been provided with separate toilets from 2014 to date. Till 2014, only 27.45% of toilets were available in Telangana, whereas presently Telangana is an open-defecation free state with 100% of toilets in place. Similarly, under the Pradhan Mantri Ujjwala Yojana, 11.11 lakh women have been allotted cooking gas connections. During the last eight years, Rs. 1,613.64 crores have been released for the development of BCs, SCs, and STs in Telangana.

### **BJP – THE REAL AND ONLY OPTION FOR A DEVELOPED, INCLUSIVE TELANGANA**

The BJP has been growing steadily in Telangana. In the parliamentary elections of April 2019, the BJP won four seats, TRS won 9, Congress won 3 seats, and MIM retained its seat. The BJP secured 19.45%, significantly higher than the votes it secured in

2018. Of course, the nation-wide wave in favor of Sri Narendra Modi was the quintessential factor.

In a by-election for the Assembly segment of Dubbaka held in October/November 2020, an area nestled amongst the constituencies of the incumbent Chief Minister's son and his nephew, the BJP secured a resounding victory.

The frustration of the Chief Minister and his cabinet colleagues clearly reflect the fact that BJP is growing stronger in the state. It is evident that only a double engine government whose conviction is nation and nation alone would be able to lend meaning to the spirited struggle of the people of Telangana.

Under these circumstances, the BJP, with its nation-first conviction and focus, and with an impeccable track record of corruption-free and scam-free governance, can only understand the aspirations and expectations of the people of Telangana.

The BJP will make an endeavor to place a viable alternative that truly realizes the aspirations of the martyrs before the people and eventually convince them to throw out this dynastic and corrupt government. ■

## **SHRADHANJALI**

### **HIMACHAL BJP KISAN MORCHA PRESIDENT RAKESH SHARMA NO MORE**

**S**hri Rakesh Sharma (Babli), President of the Himachal BJP Kisan Morcha and Chairman of the state Kamgar Board, passed away on July 2.

Shri Sharma, who was 47 years old, actively participated in the Akhil Bhartiya Vidyarthi Parishad, where he started his journey in public life and shouldered various responsibilities including the position of ABVP Delhi State Organisation Secretary.

He left behind his parents, wife and two younger kids.

As Chairman, Shri Sharma had recently participated in various Kamgar Board programmes and

travelled throughout the state.

The sudden demise of Shri Rakesh Sharma Babli ji is extremely sad, said BJP National President Shri Jagat Prakash Nadda. His entire life was dedicated to serving society and the organization. I pray to God for the departed soul and extend my condolences to his family.

Himachal Pradesh Chief Minister Shri Jairam Thakur said, Shri Rakesh Sharma died on July 2 due to cardiac arrest. The entire BJP family is mourning by his sudden demise and paying heartfelt tribute to the departed soul. ■

# MY FRIEND, ABE SAN

NARENDRA MODI

Shinzo Abe - an outstanding leader of Japan, a towering global statesman, and a great champion of India-Japan friendship - is not among us anymore. Japan and the world have lost a great visionary. And, I have lost a dear friend.

I first met him in 2007, during my visit to Japan as the Chief Minister of Gujarat. Right from that first meeting, our friendship went beyond the trappings of office and the shackles of official protocol.

Our visit to Toji temple in Kyoto, our train journey on the Shinkansen, our visit to the Sabarmati Ashram in Ahmedabad, the Ganga Aarati in Kashi, the elaborate tea ceremony in Tokyo, the list of our memorable interactions is indeed long.

And, I will always cherish the singular honour of having been invited to his family home in Yamanashi prefecture, nestled among the foothills of Mt. Fuji.

Even when he was not the Prime Minister of Japan between 2007 and 2012, and more recently after 2020, our personal bond remained as strong as ever.

Every meeting with Abe San was intellectually stimulating. He was always full of new ideas and invaluable insights on governance, economy, culture, foreign policy, and various other subjects.

His counsel inspired me in my economic choices for Gujarat. And, his support was instrumental in building Gujarat's vibrant

partnership with Japan.

Later on, it was my privilege to work with him to bring about an unprecedented transformation of the strategic partnership between India and Japan. From a largely narrow, bilateral economic relationship, Abe San helped turn it into a broad, comprehensive one, which not only covered every field of national endeavour, but became pivotal for our two countries' and the region's security. For him, this

was one of the most consequential relationships for the people of our two countries and the world. He was resolute in pursuing the civil nuclear agreement with India - a most difficult one for his country - and decisive in offering the most generous terms for the High Speed Rail in India. As in most important milestones in independent India's

journey, he ensured that Japan is there side by side as New India accelerates its growth.

His contribution to India-Japan relations was richly recognised by the conferment upon him of the prestigious Padma Vibhushan in 2021.

Abe San had a deep insight into the complex and multiple transitions taking place in the world, the vision to be ahead of his time to see its impact on politics, society, economy and international relations, the wisdom to know the choices that were to be made, the capacity to make clear and bold decisions even in the face of conventions and the rare ability to carry his people and the world with him. His far-reaching policies - Abenomics - reinvigorated the Japanese economy and re-ignited the spirit of innovation and entrepreneurship of his people.

Among his greatest gifts to us and his most enduring legacy, and one for which the world will always be indebted, is his foresight in recognising the changing tides and gathering storm of our time and his leadership in responding to it. Long before others, he, in his seminal speech to the Indian Parliament in 2007, laid the ground for the emergence of the Indo Pacific region as a contemporary political, strategic and economic reality - a region that will also shape the world in this century.

## JAPAN'S LONGEST-SERVING FORMER PM SHINZO ABE NO MORE

Japan's longest-serving former Prime Minister Mr. Shinzo Abe, who was shot on 08 July, 2022 passed away in a hospital at Kashihara city in Nara. The 67-year-old leader was shot twice by an ex-military man with a homemade gun. The assassination of the country's best-known politician happened while he was in an election campaigning for the upper house elections.

### @Jagat Prakash Nadda

Deeply saddened by the death of Shinzo Abe, the former Japanese PM. My sincerest condolences to his family and loved ones. May his soul rest in peace. He will always be remembered as a visionary who served Japan relentlessly and worked towards strengthening India-Japan relations..

Mr. Abe's first stint as Prime Minister was brief - for a little over a year starting in 2006. But he made a surprising political comeback in 2012, staying in power until 2020 when he resigned for health reasons. He

was also known for his foreign policy and a signature economic strategy that popularly came to be known as "Abenomics".

In a rare gesture, Prime Minister Shri Narendra Modi, US President Mr. Joe Biden and Australian PM Mr. Anthony Albanese issued a joint statement on 09th July in which they recalled the key role Shinzo Abe played in setting up of the QUAD and pushing for a free and open Indo-Pacific.

Condoling Mr. Abe's demise PM Shri Narendra Modi declared national mourning in India on July 09. Prime Minister Shri Narendra Modi also penned a touching tribute to former Japanese premier Shinzo Abe, calling him a towering global statesman, a great champion of India-Japan friendship and a dear friend whose counsel inspired him in his economic choices for Gujarat as the state's then Chief Minister. ■

And, he led from the front in building a framework and architecture for its stable and secure, peaceful and prosperous future, based on values that he deeply cherished – respect for sovereignty and territorial integrity, adherence to international law and rules, peaceful conduct of international relations in a spirit of equality and shared prosperity through deeper economic engagement.

The Quad, the ASEAN-led forums, the Indo Pacific Oceans Initiative, the India-Japan Development Cooperation in the Indo-Pacific, including Africa and the Coalition for Disaster Resilient Infrastructure all benefited from his

contributions. Quietly and without fanfare, and overcoming hesitation at home and scepticism abroad, he transformed Japan's strategic engagement, including in defence, connectivity, infrastructure and sustainability, across the Indo Pacific region. For that, the region is more optimistic about its destiny and the world more confident about its future.

During my Japan visit in May this year, I had the opportunity to meet Abe San, who had just taken over as the Chair of the Japan-India Association. He was his usual self - energetic, captivating, charismatic and very witty. He had innovative ideas on how to further strengthen the India-Japan friendship. When I

said goodbye to him that day, little did I imagine that it would be our final meeting.

I will always be indebted for his warmth and wisdom, grace and generosity, friendship and guidance, and I will miss him dearly.

We in India mourn his passing as one of our own, just as he embraced us with an open heart. He died doing what he loved the most – inspiring his people. His life may have been cut short tragically, but his legacy will endure forever.

I extend heart-felt condolences on behalf of the people of India and on my own behalf to the people of Japan, especially to Mrs. Akie Abe and his family. Om Shanti. ■

## VIJAY SANKALP SABHA AT HYDERABAD

# TELANGANA'S FAITH IN BJP IS RISING: PM MODI

Following the completion of BJP National Executive Meeting a massive 'Vijay Sankalp Sabha' was held in Hyderabad, Telangana on July 3, 2022. Prime Minister Shri Narendra Modi, BJP National President Shri JP Nadda and other senior BJP leaders addressed the Sabha.

Addressing the large number of people gathered in the Sabha Prime Minister Shri Narendra Modi said, "The development of Telangana, all-round development, is one of the first priorities of the Bharatiya Janata Party. Following the mantra of 'Sabka Saath, Sabka Vikas, Sabka Vishwas and Sabka Prayas', we are continuously striving for the development of Telangana."

The Prime Minister appreciated the people of Telangana for their work ethics. He said, "People of Telangana are known for their hard work. The state's people have a lot of talent. Telangana is also known for its history and culture; its art and architecture are a matter of pride for all of us."

Talking about the government's commitment towards poor, PM Shri Modi asserted, "In the last 8 years, we have initiated various policies for the welfare of the poor, Dalit, backward, and tribal people. That's why people from all sections of society have increased trust in our government and its policies. We have tried to make the life of the countrymen easier, for this we have worked continuously."

### MAKE THE 'NARI SHAKTI INTO RASHTRA SHAKTI'

Shri Modi spoke about women empowerment and said, "Today, the women of the country are feeling that their life has become easier, their convenience

has increased; now they can contribute more in the development of the nation. In this 21st century, we are making sincere efforts to make the Nari Shakti into Rashtra Shakti."

### EVERYONE GETTING THE BENEFIT OF POLICIES OF BJP GOVERNMENT

Shri Modi mentioned several national schemes including PM Jan Dhan Yojana, Swachh Bharat, Ujjwala Yojana, PM SVANidhi Yojana and others. He said, "Recently a report showed that women's share in depositing money in banks has increased. It's even better in rural areas. Survey says that women's participation in having economic assets on their names has risen. It became possible as we connected them to banking system."

At the event in Hyderabad, the PM iterated, "During the Corona global pandemic, when the biggest crisis of a hundred years came, our government tried to help every family in Telangana. Free corona vaccines were administered to crores of Indians from all over the country as well as Telangana. Free ration was distributed to the poor of Telangana, free treatment was given to the poor, everyone is getting the benefit of the policies of the BJP government without discrimination. This is called Sabka Sath, Sabka Vikas."

The PM mentioned the benefits of double engine government, he said, "Since 2019 Lok Sabha elections, the public support for the BJP has been steadily increasing. The people of Telangana are continuously giving this message that they want BJP government in Telangana. We saw another glimpse of

this in the Greater Hyderabad elections, when the BJP got unprecedented success. In other states too, we have seen that the double-engine government of the BJP has led to increasing trust of people in it. Even in Telangana people are paving the way for BJP's double-engine government."

### **LIFE OF FARMERS SHOULD BE EASY**

Talking about farmers' welfare, Prime Minister Shri Modi stated, "Ramagundam Fertilizer Factory is also empowering self-reliant India campaign. You all know that this was one of the many fertilizer factories in the country that were closed in the last decades. In 2015, we started work to make it operational again, now the production of fertilizer has started here. Very soon this too will be dedicated to the nation."

"It is our constant endeavour that the life of the farmers of Telangana should be easy, they should get maximum price for their produce. In Telangana, the central government is working on 5 big projects worth more than Rs 35,000 crore related to water. In the last eight years, the central government has bought paddy worth about Rs 1 lakh crore from the paddy farmers of Telangana," he added.

### **MODERN CONNECTIVITY INFRASTRUCTURE**

Exemplifying the paradigm shift the central government has successfully brought into the nation, PM Shri Modi said, "Modern infrastructure is very necessary for the development of every sector, be it agriculture or industry. Be it the village or the city of Telangana, the BJP-led central government is doing unprecedented work for modern connectivity

infrastructure. In order to make traffic easier in Hyderabad, the central government is building several flyovers and elevated corridors of 4 and 6 lanes at a cost of Rs 1,500 crore."

"When it comes to Aatmanirbharta, I have always talked about farm to fibre, fibre to factory, factory to fashion and fashion to foreign. Under this thought, we decided that to increase the country's exports in textiles, we would build 7 mega textile parks in the country. One of these mega textile parks is also to be constructed in Telangana," added the Prime Minister.

"I assure you that when BJP's double engine government is formed in Telangana, then work will be done faster for the development of every city, every village of Telangana. We have to connect everyone with positivity, we have to connect everyone with development," he said while concluding his speech.

### **TIME TO INSTALL A BJP GOVERNMENT IN TELANGANA: JP NADDA**

Addressing the huge gathering at the 'Vijay Sankalp Sabha' BJP National President Shri JP Nadda targeted Chief Minister K. Chandrashekar Rao, claiming that the people of Telangana were perturbed by the corruption and injustice of the TRS government.

Speaking at the Parade Grounds in Secunderabad, Shri Nadda said the public response, especially of the youth, to the BJP event was a clear indication that the time is up for the TRS government and it is time to install a BJP government in Telangana.

Criticizing the TRS government for its large-scale corruption, he said that the Kaleshwaram project had turned into an ATM for KCR to siphon public money, as the project cost was escalated from Rs.32,000 crore to Rs.1.32 lakh crore.

### **END THE DYNASTIC AND CORRUPT RULE OF THE TRS GOVERNMENT**

Accusing KCR of forcing Telangana people into a debt burden of Rs.4 lakh crore so far, Shri JP Nadda said that KCR's car (election symbol of the TRS) was full with his son, daughter and two nephews and there was no place for others in it.

He urged the people of Telangana to end the dynastic and corrupt rule of the TRS government and give BJP a chance to implement welfare and developmental policies for all sections of the society. ■

# GUJARAT CONSPIRACY EXPOSED

## SC REJECTS ZAKIA JAFRI'S PLEA IN GUJARAT RIOTS CASE; CONFIRMS SIT CLEAN CHIT TO PM MODI

Agreeing with the findings of the SIT appointed by it that there was no larger conspiracy behind the 2002 Gujarat riots, the Supreme Court on 24 June, 2022 dismissed the appeal filed by Zakia Jafri challenging the SIT's clean chit to PM Shri Narendra Modi, who was then the Chief Minister of Gujarat and others in cases related to the riots.

A bench of Justices AM Khanwilkar, Dinesh Maheshwari and CT Ravikumar said "the SIT has not found any conspiracy, linking separate and disparate acts of arson and looting or outrageous claims made in sting operations or individual utterances/ publications of purported hate speech, to any singular larger conspiracy or planned event".

Speaking in an interview to ANI on 25 June, 2022

### ALL ALLEGATIONS AGAINST GUJARAT GOVT. WERE FAKE & FABRICATED

Shri Shah emphasised that the riots and circumstances were exacerbated by the efforts of a nexus, which included opposition political parties, politically driven media reporters and journalists, and certain non-governmental organisations. Also speaking about the Special

Investigation Team, he said that it was not something ordered by the court, it was actually consented by the state government when asked by the court.

The Union Home Minister said that all the allegations against the government of Gujarat were fake and fabricated. He said that the sting operation by Tehelka was also fake and ideologically motivated. "All the sting operations were fabricated. The court has itself observed that efforts were made to put a bad tag on the state government. It was we who agreed to constitute the SIT. Why there was no SIT after the 1984 riots in Delhi?" Shri Shah remarked fiercely when asked about the BJP's denial of the SIT.

Shri Amit Shah said, "Even the affidavits of the victims were signed by the NGOs. Things were fabricated this way. Teesta Setalvad's name is openly known to all. Everyone knows how she has been involved in this."

### GODHARA TRAIN BURNING--MAIN REASON FOR RIOT

Shri Shah raised questions about the silence of Congress over the death of 59 Ram Bhakts who were burned alive at the Godhra railway station that initiated the 2002 riots. He said that the main reason for the riot was the burning of the train in Godhara but no one speaks about it.

In his closing remarks the Union Home Minister said, "Shri Narendra Modi is an honest person and he went all alone and faced all investigations. We believe in truth and we don't fear anything." ■

### @Jagat Prakash Nadda

Union Home Minister Shri Amit Shah in his interview rightly said that every person who falsely accused Hon. PM Shri Narendra Modi should apologise now that their politically-motivated allegations have been exposed as blatant lies. Thanks to the Hon. Supreme Court of India & its verdict.

about the 2002 Gujarat riots following the Supreme Court's rejection, union Home Minister Shri Amit Shah said, "I have seen Modiji in pain after the riots. A national leader of such a stature kept mum even after such allegations. I have seen that all and we are now happy that the Supreme Court came with this verdict."

Shri Amit Shah also stated that the court observed the case to be highly politically motivated. When asked why the leaders in the BJP did not do a press conference then, Shri Amit Shah said that we stayed silent because the matter was subjudice.

### **Rs. 1,44,616 CRORE GROSS GST REVENUE COLLECTION FOR JUNE 2022; INCREASE OF 56% YEAR-ON-YEAR**

The gross GST revenue collected in the month of June 2022 is Rs.144,616 crore of which CGST is Rs.25,306 crore, SGST is Rs.32,406 crore, IGST is Rs.75887 crore (including Rs.40102 crore collected on import of goods) and cess is Rs.11,018 crore (including Rs. 1197 crore collected on import of goods). The gross GST collection in June 2022 is the second highest collection next to the April 2022 collection of Rs.1,67,540 crore.

The revenues for the month of June 2022 are 56% higher than the GST revenues in the same month last year of Rs.92,800 crore. During the month, revenues from import of goods was 55% higher and the revenues from domestic transaction (including import of services) are 56% higher than the revenues from these sources during the same month last year.

This is the fifth time the monthly GST collection crossed Rs.1.40 lakh crore mark since inception of GST and fourth month at a stretch since March 2022. The collection in June'2022 is not only be the second highest but also has broken the trend of being low collection month as observed in the past. Total number of e-way bills generated in the month of May 2022 was 7.3 crore, which is 2% less than 7.4 crore e-way bills generated in the month of April 2022. ■

### **COAL PRODUCTION GOES UP BY 32.57% TO 67.59 MILLION TON IN JUNE 2022**

India's coal production increased by 32.57% to 67.59 Million Ton (MT) from 50.98 MT during June, 2022 as compared to June 2021. As per the provisional statistics of the Ministry of Coal, during June this year, Coal India Ltd (CIL), Singareni Collieries Company Ltd (SCCL) and captive mines / others registered a growth of 28.87%, 5.50% and 83.53% by producing 51.56 MT, 5.56 MT and 10.47 MT respectively. Of the top 37 coal mines as many as 22 mines produced more than 100% and production of another nine mines stood between 80 and 100%.

Coal based power generation has registered a growth of 26.58% in June 2022 as compared to June 2021. ■

### **DRDO CONDUCTS SUCCESSFUL MAIDEN FLIGHT OF AUTONOMOUS FLYING WING TECHNOLOGY DEMONSTRATOR**

Maiden flight of the Autonomous Flying Wing Technology Demonstrator on July 1 was carried out successfully by Defence Research and Development Organization (DRDO) from the Aeronautical Test Range, Chitradurga, Karnataka on July 01, 2022. Operating in a fully autonomous mode, the aircraft exhibited a perfect flight, including take-off, way point navigation and a smooth touchdown. This flight marks a major milestone in terms of proving critical technologies towards the development of future unmanned aircraft and is significant step towards self-reliance in such strategic defence technologies. ■

### **GOVERNMENT APPROVES ASSISTANCE FOR 7 JOURNALISTS AND 35 FAMILIES OF JOURNALISTS**

The Central Government on 1 July approved a proposal of the Journalist Welfare Scheme Committee to provide financial relief to the families of 35 journalists who have lost their lives. This includes 16 families of journalists who died due to Covid-19 under the Journalist Welfare Scheme (JWS). The families will be provided with assistance up to Rs. 5 lakhs.

The JWS Committee also recommended assistance to two journalists suffering from permanent disability and to five journalists for their medical treatment of major ailments as per the JWS guidelines. The committee has approved a total assistance of Rs. 1.81 Cr during the meeting.

So far, assistance under the scheme has been provided to 123 families of the journalists who have lost their lives due to Covid-19. With the current approvals, in the current meeting a total of 139 families have been provided assistance.

Under the scheme, the families of journalists are provided with financial assistance up to Rs 5 lakh in the event of the death of the journalist causing extreme hardship. Assistance is also provided to journalists in case of permanent disability, serious accidents and major health ailments. ■

## MoD APPROVES THREE PRIVATE SECTOR BANKS TO PROVIDE FINANCIAL SERVICES IN OVERSEAS PROCUREMENT

In line with further opening of allocation of Government business to Private Sector Banks by the Department of Financial Services, MoD has assigned three Private Sector Banks viz HDFC Bank Ltd., ICICI Bank and Axis Bank to provide the Letter of Credit and Direct Bank Transfer business for overseas procurement by the Ministry. MoUs in this connection have been signed with each of these three banks recently by PCDA, New Delhi on behalf of MoD.

Till now, only authorised public sector banks were utilised to provide these services to MoD. With this for the first time three Private Banks have also been allowed to provide financial services for overseas procurement by MoD. ■

## ‘DR SHYAMA PRASAD MOOKERJEE - A GREAT PATRIOT AND A TRUE NATIONALIST’

**O**n the Jayanti of Dr Shyama Prasad Mookerjee, the Bharatiya Janata Party National President Shri Jagat Prakash Nadda offered rich tributes and also took part in the tree plantation drive held on the occasion at BJP headquarters in New Delhi on 06 July, 2022. Remembering Dr. Mookerjee, Shri Nadda said he was a great patriot, a true nationalist, a strong advocate of cultural nationalism and a great educationist. Today, West Bengal and Punjab are integral parts of India and the entire credit of this goes to Shri Shyama Prasad Mookerjee.

Dr Mookerjee persistently fought and struggled to make Jammu and Kashmir an integral part of India post Independence, and for this, he made the supreme sacrifice. Dr Mookerjee's dream was finally realised by Prime Minister Shri Narendra Modi whose strong will and commitment besides the impeccable planning of Union Home Minister led to the scrapping of Article 370 and Jammu and Kashmir became the integral part of India in true sense.

Shri Nadda said Dr. Mookerjee was India's first Industry Minister under the Pandit Jawaharlal Nehru Government. He formulated

India's first Industrial policy. He was the one who created Khadi Gramodhyog to strengthen our economy and make India self-reliant.

Dr Mookerjee was deeply concerned and saddened by Pandit Jawaharlal Nehru's policy of appeasement and aping the Western line on the matters of nation building post Independence. It was for this reason that he created Bharatiya Jan Sangh to give an alternate political ideology to the nation. It was Dr Shyama Prasad Mookerjee who gave the slogan 'Ek desh mein do Vidhan, do Pradhan, do Nishan nahin chahenge' (In our country the policy of two Constitutions, two Prime Ministers and two national emblems will not work). For this he started Satyagrah movement, and he even entered Jammu

and Kashmir without permit in defiance of the government order.

While entering Jammu and Kashmir on June 11, 1953 Dr Mookerjee was arrested and lodged in jail. He died under highly mysterious circumstances on June 23, 1953. Dr Mookerjee's mother wrote to the then Prime Minister Pandit Jawaharlal Nehru seeking urgent and fair probe into the death but Pandit Jawaharlal Nehru

did not pay any heed to it. Thus the real cause of the death of Dr Mookerjee was not known.

The BJP National President said remembering Dr Shyama Prasad Mookerjee- from his death anniversary on June 23 to his birth anniversary on June 6- the Bharatiya Janata Party does various social work and organise various camps which include giving free aid and assistance to sick and needy people in hospitals, holding massive plantation drives across India and helping poor and needy people. All this symbolizes the BJP workers' respect and honour for Dr Shyama Prasad Mookerjee.

Shri Nadda said if we all take inspiration from his life and work tirelessly and dedicatedly towards strengthening our nation then it will be a true tribute to this great leader. ■
