BJP IS NOW INDELIBLY INSCRIBED IN THE HEARTS OF PEOPLE

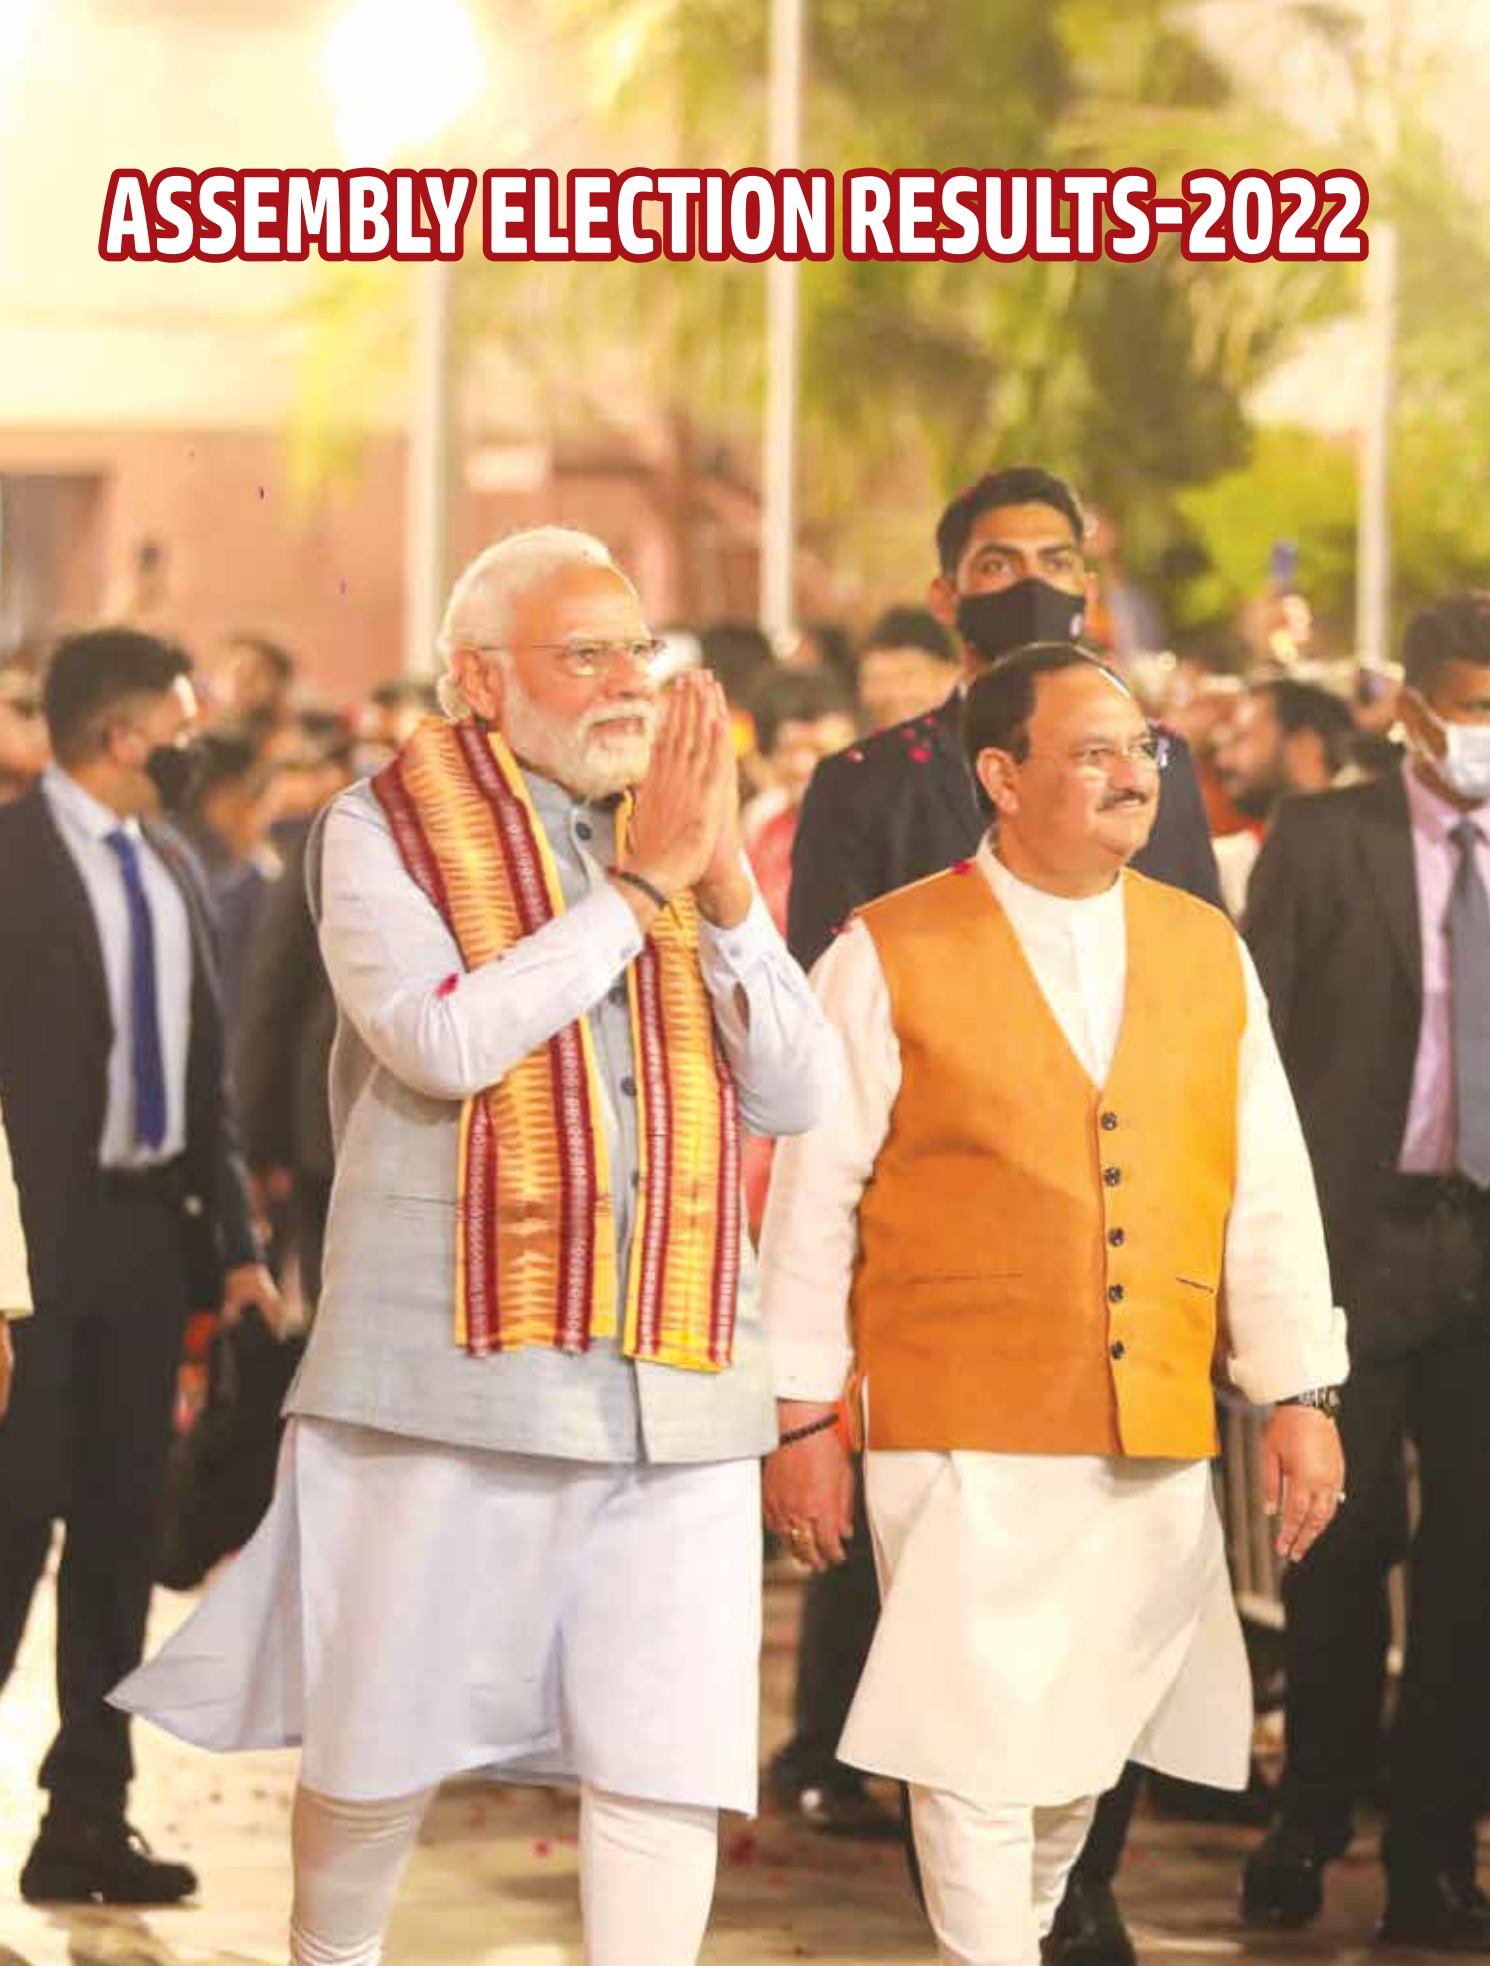

The huge support of the people across India has once again reflected in the massive mandate that the people have given to the BJP in the recently held assembly elections. In the four out of five states that went to the polls, the BJP has not only emerged victorious but also scripted a history of its governments getting re-elected after successfully completing their terms. In Uttar Pradesh, Uttarakhand, Manipur, and Goa, people have re-elected full-majority BJP governments, ending an era of political instability in these states. In Uttar Pradesh, the incumbent chief minister, Yogi Adityanath, not only completed his full tenure of five years successfully but also received more than two-thirds majority, showing immense faith of the people in the BJP and its policies. For the first time in decades, the same party government was re-elected and a chief minister got people's positive mandate after completing the full term. In Uttarakhand, people broke the trend of voting differently every five years and strongly supported the BJP for the second consecutive term. In Manipur, the BJP government was re-elected with a comfortable majority, and in Goa, the BJP has got the required numbers to form the government in the state. The overwhelming blessings which the BJP continues to receive from the people under the dynamic and charismatic leadership of Prime Minister Shri Narendra Modi is a new phenomenon in Indian politics, defying the three decades of political instability in the country. The massive win in these four geographically and demographically apart states shows that the politics of good governance, development, and performance has now created a lasting niche in the heart of Indian politics.

The verdict of the people in these four states may be seen in the context of the two years of the COVID-19 pandemic, which led to an unprecedented global crisis at various levels. It was a challenge that appeared insurmountable in India, but under the strong and determined leadership of Prime Minister Shri Narendra Modi, the nation not only tried to convert these challenges into opportunities but also led from the front in helping many needy countries across the world. The entire world witnessed India's firm resolve to fight the crisis when, for the first time, "Made in India" vaccines were produced in large quantities in India itself within a record time. It resulted in the success of the world's largest and fastest vaccination programme, which was able to provide more than 90% of India's huge population with at least one dose of vaccine within months. Not only this, these "Made in India" vaccines were made available to other needy countries, making India a leading country in the fight against the pandemic. The free ration, various assistance to the vulnerable section of the society, the Seva-Hi-Sangathan programme by millions of dedicated BJP karyakartas, the selfless commitment of doctors, nurses, paramedics, administrative staff, and Corona warriors, and the call of "Aatmnirbhar Bharat" by the PM, launching innumerable initiatives during the COVID-19 pandemic, has further strengthened the faith of people in the indefatigable leadership of PM Shri Narendra Modi and the selfless commitment of the BJP karyakartas. The people of India are not only proud of these achievements, but they are also confident of meeting any challenges that come their way as they strive for a brighter future.

While the nation was unitedly facing the challenges of the pandemic, the opposition parties were busy scoring political points through false propaganda and baseless campaigns. The nation will never forget the way the Congress and other opposition parties tried to break the morale of the nation by instilling fear, suspicion, and negativity in the hearts of people by questioning the nation's capability and by maligning "Made in India" vaccines. The people have rightly punished them in this election and defeated their politics of lies, deceit, and betrayal. While the BJP has received overwhelming support from the people of Uttar Pradesh, Uttarakhand, Manipur, and Goa, the people of Punjab, who have defeated and ousted the Congress this time, will undoubtedly give the BJP their full support in the days ahead. The people have also shown their increasing faith in the BJP in the recently held local body elections in Tamil Nadu and Assam. There is no doubt that the name of BJP is now indelibly inscribed in the hearts of the people. ■

ASSEMBLY ELECTION RESULTS-2022

BJP MAKES HISTORIC COMEBACK WITH LANDSLIDE VICTORIES IN UTTAR PRADESH, UTTARAKHAND, MANIPUR & GOA

As per the announcement of Assembly Election Results on 10th March 2022, the Bharatiya Janata Party stormed back to power in the politically crucial states of Uttar Pradesh, Uttarakhand, Goa and Manipur with landslide victories. The festival of colours - Holi came a week early for the BJP Karyakartas and supporters in all these states including India's largest and most populous state Uttar Pradesh as incumbent BJP governments returned to power breaking all myths and with massive majority. Breaking the barriers of caste and religion the people once again voted for politics of development by giving strong approval for BJP's pro-poor pro-active governance. The outcome of the Assembly polls was seen as a barometer of people's mood also which saw the Congress' epitaph written on the electoral battlefield. The BJP increased its vote share in almost all the states that went to polls including Punjab.

Congratulating the BJP karyakartas for the magnificent victory of the party Prime Minister Shri Narendra Modi said, "The people of UP, Uttarakhand, Goa and Manipur have showered @BJP4India with great affection. My gratitude to the people of all these states. Our Party cherishes these

blessings and will keep working for the development of these states".

Crediting PM Shri Narendra Modi for BJP's historic victory in four assembly elections, BJP National President Shri JP Nadda said the people's massive support to the party in Uttar Pradesh, Uttarakhand, Goa and Manipur shows their stamp of approval for the Prime Minister's welfare schemes and policies. Shri Nadda said the Prime Minister has ushered in politics of "report card, development and people's empowerment, replacing politics of nepotism, corruption, crime, casteism, communalism and

regionalism".

He also praised Uttar Pradesh Chief Minister Yogi Adityanath for bringing the rule of law in Uttar Pradesh by liberating the state from political parties that patronized fear, terrorists and criminals five years back.

Noteworthy, all the five states went to the polls between 10th February and 07th March 2022. Uttar Pradesh voted in seven phases and Manipur voted in two phases while Punjab, Uttarakhand and Goa went to the polls in one phase. The Assembly Election Results were declared on 10th March 2022.

BJP SCRIPTS NEW HISTORY WITH RESOUNDING VICTORY IN UP

The ruling Bharatiya Janata Party has finally rewritten history in the country's most populous state of Uttar Pradesh, where an incumbent political party has been voted back to power in succession after a gap of nearly four decades. Riding on Prime Minister Shri Narendra Modi's enormous popularity and Chief Minister Yogi Adityanath's immense welfare and development works the ruling BJP stormed back to power by decimating the opposition and scripting a new history in Uttar Pradesh.

As per the Election Commission results, for 403 seats in Uttar Pradesh, the BJP with its alliance partners- Apna Dal (Soneylal) and NISHAD party got 273 seats with 41.3 per cent vote share. The numbers show that the party had won a clear majority by the fifth phase of polling itself. The 70 plus seats won by the BJP in the last two phases added to the size of the victory. The BJP's vote share also rose to 41.3 per cent as against 39.6 per cent in 2017 assembly elections.

In one hand, the BJP scripted a new history by breaking the jinx of four decades for any party to win a second consecutive term in Uttar Pradesh and on the other hand Yogi Adityanath also achieved the maiden feat of an incumbent Chief Minister returning to power in the state after serving a full term in office. In his address to BJP workers after the victory, Prime Minister Shri Narendra Modi accurately mentioned that the "silent vote of women and youth" was largely responsible for the party's landslide victory. The new MY formula of Mahila-Youth base by the BJP seems to have trounced the Muslim-Yadav formula perfected by the Samajwadi Party over the years.

With its alliance partners, the Akhilesh Yadav led opposition Samajwadi Party (SP) managed to win 126 seats and 32 per cent votes. The BSP and Congress were completely decimated in the polls,

which turned out to be a bipolar contest between the BJP and SP, and recorded their lowest numbers in the polls winning one and two seats respectively.

An analysis of the result also shows that the electorate of Uttar Pradesh also endorsed Prime Minister Shri Narendra Modi's proclamation that "Yogi hai bahut UP-Yogi" and re-elected an incumbent Government which was something unprecedented in the political scenario and indicated strongly pro-incumbency. The BJP dominance has been complete, from east to west and north to south and contrary to the perceptions region-wise also the BJP retained its base. As per primary analysis, in the Avadh region, out of a total of 111 seats, the BJP won 84 while the SP won 27 and the BSP and Congress drew a blank. In Bundelkhand, the BJP won 16 out of 19 seats while the SP pocketed 3. In the crucial East UP, the BJP won 87 out of the 142 seats while the SP won 46, BSP 1 and Congress 2. In Western UP, the BJP won 71 out of 97 and the rest 26 went to SP-RLD combine.

The party also swept its strongholds of Agra, Mathura, Ghaziabad, Noida, Jhansi, Gorakhpur, Prayagraj, Varanasi and Ayodhya districts while CM Yogi Adityanath won the Gorakhpur seat with a massive margin of more than 1,00,000 votes.

The outcome has shown that the electorate also rejected all caste, religion and region based narratives

SUN STARTS TO SET FOR 'PARIWARVAD' POLITICS IN INDIA: NARENDRA MODI

Prime Minister Shri Narendra Modi addressed Bharatiya Janata Party karyakartas at the party headquarters in New Delhi on 10 March, 2022 after BJP's landslide victory in assembly elections 2022. PM Shri Modi thanked the people of these states and the BJP Karyakartas for their wholehearted support and assured them of greater progress in the

successful in winning the trust of the people across states. It's a 'Jeet Ka Chowka' by our NDA karyakartas. For the first time in 37 years, a government has won a 2nd consecutive term in Uttar Pradesh. For the first time, a CM will be elected for a second term. The results strongly vindicate BJP's pro-poor and proactive governance."

Shri Modi highlighted the increase in BJP's vote share in Manipur, Uttar Pradesh and Goa, even after being incumbent. He said all exit polls were proven incorrect in Goa, and the people of Goa have given BJP the chance to serve them for the third consecutive time.

He further thanked karyakartas of Punjab for putting an exceptional effort in the state assembly elections and said, "I can already see BJP emerging as 'A force to reckon' with, in Punjab... Our Punjab workers have made the party and our flag proud with their work in Punjab despite difficult circumstances."

Taking a dig at the opposition, Shri Narendra Modi said, "For the great good of the country, let's give up the older ways... Start thinking afresh." He also lauded women participation in these elections, he said, "The women have played a crucial role in these elections across states. They have blessed us – we've won splendidly in areas where women voters have dominated. Our Nari Shakti have been our partners in this victory. When I was in Gujarat, people

years to come. He said, "First time voters took part in elections with great enthusiasm and ensured BJP's victory. During elections, BJP karyakartas promised me that Holi celebrations would start from March 10. They fulfilled their promise."

Thanking all the voters for participating in this festival of democracy and ensuring BJP this victory, the PM said, "Our karyakartas worked 24X7 and were

used to worry about my safety sometimes. I used to tell them 'Koti koti maataon ka, stree shakti ka mujhe kawach mila hai'."

Addressing the massive crowd of supporters and party karyakartas gathered to hear their leader, PM Shri Modi stated, "When we formed the government in 2019 (at Centre), experts said it was because of the 2017 victory (in UP). I believe the same political experts will say that the 2022 election result will decide the fate of the 2024 national elections."

Talking about the Russia-Ukraine crisis, the Prime Minister remarked, "The ongoing war is affecting every country across the world. India believes that problems can be resolved only with peace. We hope that all problems will be resolved with deliberations. India has a connection with countries involved in the war – economically, security-wise, education wise and politically as well. India's several needs are connected to these countries."

Slamming the opposition, PM Shri Narendra Modi asserted, "It is unfortunate that even when thousands of Indians were stranded in Ukraine, some were trying to malign "Operation Ganga". These people tried to regionalize the mission. These people have given a different colour of regionalism and communalism to every scheme – it is a major worry for India's future."

The PM expressed his pleasure and reiterated his confidence in the voter's instinct and resolve to vote for a government that has uplifted the lives of the poor. He said, "The sun has started to set for 'Pariwarvad' politics in India, today's election results have decided that."

Shri Modi also spoke on the issue of some people

aiding and abetting corruption in the country. He said, "People who are surrounded by scams unite and start pressurizing institutions. These people, along with their ecosystem, find new ways to stop the investigating agencies." He further added that the people who stop the investigation agencies are the same people who do not believe in India's Judicial System and start to take shelter in the colour of religion and caste. The PM advised people to not let these offenders take shelter in their caste and religion.

Talking about the vision for the next 25 years of India, Shri Modi said, "From here on, we're going to work on two tracks at once. On one hand, our emphasis will be on the welfare of the poor, small farmers and small entrepreneurs. On the other hand, by giving new opportunities to the country's resources and the youth power of the country, we want to accelerate the mission of self-reliance."

Shri Modi exemplified a few instances of 'Aatmanirbhar Bharat', he said, "Today India is becoming self-reliant in digital payment systems, increasing its potential in the field of startups and making new achievements in the field of technology. All this is happening because of the power of the youth... Today such a new India is being built, where you are identified by your work and not by your family."

PM Modi finally addressed the importance of 'Sabka Saath, Sabka Vikas, Sabka Vishwas and Sabka Prayas' in developing each and every corner of the country. Shri Narendra Modi said, "We have to work together and not waste a single moment. Challenges are tough but we have to overcome them and take the country forward." ■

INDIAN NEWSPAPERS ON BJP'S MAMMOTH VICTORY

ASSEMBLY ELECTION RESULTS OVERWHELMINGLY IN FAVOUR OF BJP: JP NADDA

BJP National President Shri JP Nadda addressed a huge gathering of party karyakartas and supporters at BJP headquarters in New Delhi to celebrate the historic victory of the party in the recently completed assembly elections in four states on 10 March, 2022. Salient points of his speech.

The assembly election results in Uttar Pradesh, Uttarakhand, Goa and Manipur are overwhelmingly in favour of the Bharatiya Janata Party. I thank and congratulate Prime Minister Shri Narendra Modi on behalf of crores of BJP workers for this historic victory.

The manner in which people of Uttar Pradesh, Uttarakhand, Goa and Manipur have voted overwhelmingly for the Bharatiya Janata Party shows that the people have put their stamp of approval on the pro-poor and pro-people policies and programmes of Prime Minister Shri Narendra Modi.

It is for the fourth consecutive time that the people of Uttar Pradesh have showered their trust and blessings on the Bharatiya Janata Party – in 2014 Lok Sabha elections, 2017 assembly elections, 2019 Lok Sabha elections and now 2022 assembly elections.

In Uttar Pradesh it is for the first time in 37 years that an incumbent government has once again been voted to power. In Uttar Pradesh our vote share has also increased from 39% to 42%.

In Uttarakhand it has been a trend to change governments. But this time we fought elections in the state under the leadership and guidance of our Hon'ble Prime Minister Shri Narendra Modi ji and once again came to power with two-third majority with the blessings of the people of Devbhoomi.

In Manipur for the first time the Bharatiya Janata Party is going to form its government with full majority. In Goa we have scored a hat-trick of victory. It is

very clear that the electorate have wholeheartedly supported the policies and programmes of PM Shri Narendra Modi and his pledge to make 'New India'.

The people of India – villagers, poor, farmers, Dalits, backward and oppressed classes, youth, women – are deeply attached to Prime Minister Shri Narendra Modi; they share special chemistry with Shri Modi.

Shri Narendra Modi has entirely changed the political culture of our country. He has changed the politics of nepotism, corruption, communalism, casteism, appeasement, regionalism and dynasty politics and has established the politics of development, accountability and report card in the country.

Prime Minister Shri Narendra Modi has empowered all sections of the society – villagers, poor, Dalits, farmers, oppressed and backward classes, youth and women – through his pro poor and welfare oriented policies and programmes.

Five years ago it was goonda raj, mafia raj, corruption and terrorism which was ruling the roost. But under the double engine government of the Bharatiya Janata Party under Chief Minister Yogi Adityanath which made Uttar Pradesh a state free of fear and where rule of law was established.

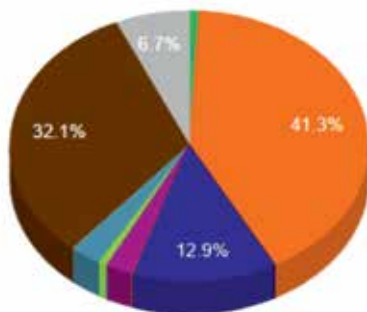

Prime Minister Shri Narendra Modi has implemented 'Act East Policy' in Manipur. In the past seven years the Prime Minister has visited the Northeast around 50 times. And its result is now being reflected in the massive mandate for the Bharatiya Janata Party in Manipur.

Shri Narendra Modi had said long back that the next decade belongs to Uttarakhand. The people of Devbhoomi have given massive support to this initiative of the Prime Minister.

In 2024 we again have to register a historic victory. We all have to move ahead unitedly and under the leadership and guidance of Hon'ble Prime Minister Shri Narendra Modi to make India a 'Vishwa Guru'. ■

UP CM BREAKS NOIDA JINX

After more than three decades, Yogi Adityanath has become the first Chief Minister of Uttar Pradesh to break the Noida jinx. As per the established superstition, whichever Chief Minister visits the city during his/her tenure loses the next election or does not complete the term. However, CM Yogi Adityanath visited Noida several times during last five years and pushed it to emerge as an industrial hub with one of the biggest International Airport in the country. Now under the safe hands of BJP, Noida is also attracting investments at a steady pace.

Notable, former Chief Minister Akhilesh Yadav never dared to visit Noida during his tenure from March, 2012 to March, 2017 and openly accepted that it was due to this long held superstition.

of the opposition parties and blessed BJP for its best crisis management during the Covid pandemic, host of welfare programmes for the poor, migrants and robust law and order scenario during its rule. It seems this

time the BJP has dislodged the caste-based identity politics of the SP and BSP and created a vote bank irrespective of caste and religion that supports the welfare and development politics for a New India. ■

'VICTORY IS FOR PM MODI'S POLICIES AND PEOPLE'S TRUST IN HIM'

After receiving massive mandate in Uttar Pradesh Assembly Election the Chief Minister Yogi Adityanath on March 10 said, it was clear mandate by the people for development and people had buried politics of caste and religion by ensuring victory of BJP in Uttar Pradesh.

Yogi Adityanath said, "Everyone had their eyes on UP, given the vastness of the state. I am thankful to the people for making us win with majority...Under PM Modi's leadership we will be forming govts in UP, Goa, Manipur, and Uttarakhand."

"The people of UP have buried the dynastic politics and also politics of caste and religion by ensuring victory to the BJP and its allies," Adityanath said.

The UP Chief Minister also said the "misleading" campaign run by the Opposition over the past 2-3 days had been set aside by the people who reposed faith in the good governance of the BJP. He was apparently taking a dig at Samajwadi Party chief Akhilesh Yadav for raising questions over EVMs.

"The false propaganda regarding EVMs and election material over the last few days have been rejected," Adityanath said.

Yogi Adityanath said the victory was a win for Prime Minister Narendra Modi's policies and it showed people's trust in him.

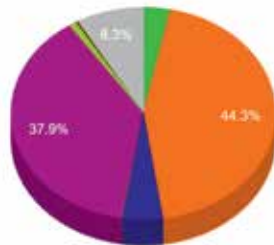

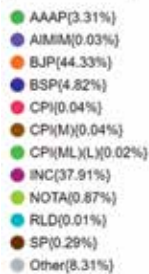

"Today BJP and alliances have won in UP and got full majority. For the first time, seven phases of the elections and counting have gone smoothly. I would like to thank the Election Commission as well. This victory is a win for PM Modi's policies and people's trust on PM Modi that have granted another chance to serve better," Adityanath said. ■

BJP FIRST PARTY TO FORM GOVT IN UTTARAKHAND WITH CONSECUTIVE VICTORY

UTTARAKHAND

Similar to Uttar Pradesh, the Bharatiya Janata Party has also scripted a new history in Uttarakhand by becoming the first party to be re-elected to form the Government for a consecutive second term since the inception of the State. The BJP won 47 seats, 11 more than the required majority in the 70-seat assembly while, the Congress could manage to win only 19 seats. The Bahujan Samaj Party and independent candidates won two seats each.

BJP RE-ELECTED TO FORM GOVT IN MANIPUR

Thanking the people of Manipur for the victory, Shri Singh said BJP is grateful for the victory, and this victory is a testament of people's faith in PM Shri Narendra Modi's leadership and good governance.

The West is grappling with the question of whether the individual has primacy or society. Many aver that an individual is free to do anything he or she likes. But can a man claim to have absolute freedom? The individual cannot do anything by himself. He has to work in conjunction with others. He is completely reliant on others for his food, nourishment, routine activity, and almost everything else. Even as science progresses, the individual is becoming increasingly dependent on others. The farmer produces food grains, but for clothing, he remains dependent on others.

A human being is the most helpless creature at birth. All activities—walking, talking, eating, learning everything is taught to him by others. His joy, happiness also depend on others. Eating, drinking, travelling, celebrating festivals, and visiting fairs alone give him no joy. Our happiness multiplies on auspicious occasions. Like in a wedding, it multiplies only when others come to visit us. Even though, during illness and grief, visitors can, at times, prove more of a burden than help, their company tends to lighten our grief and provide succor. The conclusion is that one cannot live alone. Materially, socially, in all respects, man is dependent on others.

THE SLOGAN OF INDIVIDUAL FREEDOM OF LIBERTY IS, THEREFORE, MEANINGLESS

In one of his poems, Rabindranath Tagore also put a question mark on the notion of individual freedom. Our Creator is bound by the laws of his own creation. He can't save someone from being burned if he has a fireball in his hand. Only the application of some ointment can provide relief. Some say, God is capable of anything, but this is not quite true, God cannot be unjust; else he will be the devil. He can only be righteous. His actions are not unbridled; he too is bound by the laws of his own creation.

CAPITALISM, SOCIALISM, COMMUNISM AND OTHER ISMS

Some people treat freedom as the absence of all restraints. Western thinking is that, be it society, nature, or all creation as such, - all is meant for the individual. The West says, "Conquer nature". The frequently used English expression is "exploiting natural resources," that is to say, using everything

MAN IS NOT FREE

-PT. DEENDAYAL UPADHYAYA

for personal consumption and aggrandizement. Slaughter animals and eat them up because everything is meant for me. This is their worldview. A man is big and mighty, hence everything is meant for him. Man is large and powerful, but our definition of "large" is "one who is for others and serves others."

In the West, one talks of the conquest of nature. They call climbing Everest the 'conquest of Everest'. We too went to the Himalayas and climbed peaks, but with a sense of worshipful renunciation. "I will conquer, I am the mightiest. This attitude is egotistical. It is egotism that gave rise to capitalism and communism.

The communism that exists today is not true communism either. This is also a kind of individualism. The communists say that the owner of the machine employs labourers, pays little to them, and consumes the most himself. They arouse a feeling of jealousy among the workers (against the entrepreneurs) by stating, "They move around in cars on the fruits of your labour." Your labour, but being alone, you are weak. You should therefore all unite. " Statements such as these do not reflect a sense of society, but rather an envious otherness.

The communist organisation also implies the rule of labour and not of society. In the labourers' collective, the worker cannot do anything by himself. He is asked to surrender his power to the collective. Thus, the worker loses his freedom too. It is, therefore,

a dictatorship of the proletariat, not the sense of society. Communism is a totalitarian ideology that leads to a total loss of freedom for the individual; the entire ideology is predicated on conflict and struggle.

Conflict is inherent in capitalism too. Competition forms its basis, and the principle of survival of the fittest provides its underpinnings. The communists do not believe in competition but in class struggle. This system also gives rise to competition within the class instead of the individuals. The West thus doesn't think of the whole but rather of the parts. This mode of thinking is, in our view, partial and not holistic.

CO-OPERATION, NOT STRUGGLE

It is not just the fittest who survive in this world, the weak survive too. That is precisely the meaning

of civilization, that the weak are protected. So that the weak may also survive, is exactly why medical science like Ayurveda is required. The strong and fit will survive anyway. Police also exist for the protection of the weak. The State was created to obviate the justice of the dominant. Society and laws are created so that the strong do not run over the weak.

It can hence be said that the basis of society is co-operation and not struggle. Nature also follows this principle. Vegetation and human life are complementary. There is no struggle between the two. We require oxygen, and plants require carbon dioxide; the two thus complement one another. ■

TRIBUTE TO BHAGAT SINGH, SUKHDEV & RAJGURU ON THEIR MARTYRDOM DAY

When the British Govt implemented an Act to suppress freedom struggle, it gave the British Police a free hand to carry out arrests without any permissions. In order to protest against this Act, Shaheed-e-Azam Bhagat Singh and his friends carried out a plan to use low intensity bomb inside the assembly hall and at the same time ensure that there are no harm to anyone. Immediately after the bombing, Bhagat Singh and his friends voluntarily surrendered and taken to trial. They were charged with attempt to murder and sentenced to 14 years life in 1929.

Further investigation by the Police led to discovery of other members, some of who turned into informants and helped police to connect Bhagat Singh with an alleged murder of a British Officer. Singh was again arrested and sent to another jail where he faced discrimination between British & Indian prisoners and that led to his protest in the form of hunger strike

against the discrimination.

In the meantime, the ongoing investigation of framing Bhagat Singh for the alleged murder of a British Officer in the past was hastened by the Viceroy, Irwin in 1930. Bhagat Singh, Rajguru & Sukhdev were sentenced to death and the execution date was fixed to 24th March 1931.

On 17th March, a telegram was sent to Home Dept preponing the execution date to 23rd March, which was carried out death at 7.30pm on 23rd March 1931.

The martyrdom was a great

blow to the sentiments of Indians who in turn were deeply moved and held demonstrations all over the country.

The sacrifice of great martyrs motivated the freedom fighters to relentlessly pursue the movement which finally resulted in Indian Independence.

Every year, 23rd March is observed as 'Martyrs Day' in honor of Bhagat Singh, Rajguru & Sukhdev. We salute to our martyrs, the heroes of our freedom struggle so that subsequent generations could live in peace & prosperity. ■

PROGRESS OF WOMEN ALWAYS GIVES STRENGTH TO THE EMPOWERMENT OF THE NATION: NARENDRA MODI

Prime Minister Shri Narendra Modi addressed a seminar on International Women's Day in Kutch through video conference on March 8. Addressing the gathering, the Prime Minister greeted the gathering on the International Women's Day. He recognized the special place of the land of Kutch as a symbol of Nari Shakti for centuries as Maa Ashapura is present here in the form of Matrushakti. "The women here have taught the entire society to live with harsh natural challenges, taught to fight and taught to win", he said.

He also praised the role of women of the Kutch in their quest for water preservation. As the event was being held in a border village, the Prime Minister recalled the contribution of women of the area in the 1971 war.

that brought dignity and ease of living for women.

The Prime Minister said the government is also giving them financial help so that women can move forward, fulfil their dreams, and start work of their own. "More than 80 percent of the loans under 'Standup India' are in the name of women. About 70 percent loans have been given to our sisters and daughters under Mudra Yojana" he said. Similarly, most of the 2 crore houses made under PMAY are in the name of women. All this has increased the participation of women in financial decision making.

The Prime Minister informed that the Government has increased maternity leave from 12 weeks to 26 weeks. He added that the laws for the safety of women in the workplace have been made more strict. Today, the country is promoting greater roles for girls in the armed forces, the admission of girls has started in Sainik Schools.

NLMC will undertake monetization of surplus land and building assets of Central Public Sector Enterprises (CPSEs) and other Government agencies. The proposal is in pursuance of the Budget Announcement for 2021-22. With monetization of non-core assets, Government would be able to generate substantial revenues by monetizing unused and under-used assets. INDIA HAS BEEN SUCCESSFUL IN BRINGING HOME AN INVALUABLE HERITAGE: PM

PM Shri Narendra Modi stated in his 86th episode of 'Mann Ki Baat' on February 27, 2022, that India had been successful in bringing home an invaluable heritage from Italy. He also emphasized the importance of understanding science in one's native language. Brief summaries of the address:

- In the beginning of this month, India has been successful in bringing home an invaluable heritage of hers from Italy. This heritage is the over one thousand years old idol of Avalokiteshvara Padmapani. This idol was stolen a few years ago from Kundalpur temple, Devi Sthan of Gaya in Bihar. But after innumerable efforts, India has now got this idol back. Similarly, a few years ago the idol of Lord Anjaneyaar, Hanuman ji was stolen from Vellore in Tamil Nadu. This idol of Hanuman ji was also 600-700 years old. Earlier this month, we retrieved this in Australia; our Mission has received it.
- Friends, talking about Indian culture and our heritage, today I want to introduce you to two people in 'Mann Ki Baat'. These days, two Tanzanian siblings, Kili Paul and his sister Nima, are in the news a lot on Facebook, Twitter and Instagram, and I'm sure you too, must have heard about them. They have a passion, a craze for Indian music and for this reason they are also very popular. Their technique of Lip Sync shows how hard they work at it. Recently, a video of him singing our National Anthem 'Jana Gana Mana' on the occasion of Republic Day went viral. A few days ago, he also paid a soulful tribute to Lata didi by presenting her song. I really appreciate these two siblings Kili and Nima very much for their wonderful creativity. A few days ago, he has also been honoured at the Indian Embassy in Tanzania. The magic of Indian music is such that it fascinates everyone. I recall, a few years ago, singers-musicians from more than one hundred and fifty countries of the world, in their respective countries,

Our languages have their own special characteristics; mother tongue has its own science. For understanding this science, emphasis has been laid on studies in the local language in the National Education Policy

- in their respective costumes, made a successful presentation of 'Vaishnav Jan', the beloved bhajan of revered Babu, the favourite composition of Mahatma Gandhi.
- Today, when India is celebrating the important festival of 75th year of its Independence, similar initiatives can be carried out regarding patriotic songs, wherein foreign nationals or famous singers from abroad are invited to render Indian patriotic songs. Not only this, if Kili and Neema in Tanzania can lip sync the songs of India in this manner, aren't there many types of songs in my country... in many languages of our country... can't any Gujarati children do that with Tamil songs....some children of Kerala could do that with Assamese songs.... some Kannada children could that with songs of Jammu and Kashmir! We can create such an environment in which we will be able to experience 'Ek Bharat-Shreshtha Bharat'. Not only this, we can definitely celebrate Azadi ka Amrit Mahotsav in a novel way.
- Friends, our languages have their own special characteristics; mother tongue has its own science. For understanding this science, emphasis has been laid on studies in the local language in the National Education Policy. Efforts are being made that our professional courses should also be taught in the regional languages. In Azadi Ka Amrit Kaal, we all should lend momentum to this effort together; this is a work indicative of self-respect. I would like you to know about the qualities of whatever mother tongue you speak and write something in it.
- Friends, A few days ago I had a meeting with my

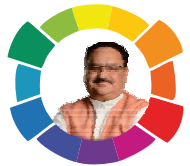

friend and former Prime Minister of Kenya, Raila Odinga. This meeting was interesting but also very emotional. Since we are very good friends, we also discuss freely. While both of us were in a conversation, Odinga ji told about his daughter. His daughter Rosemary had a brain tumour and because of this she had to undergo surgery. However, one side-effect of this was that Rosemary almost lost her eyesight; she stopped seeing. You can imagine what must have happened to the daughter... and we can also guess the condition of the father, we can understand his feelings. In hospitals all over the world... there was not any major country in the world, where he had not tried his best for the treatment of his daughter. He searched the big countries of the world, but, there was no success and in a way, giving up all hopes, there was an atmosphere of despair in the entire household. Meanwhile, someone suggested him to come to India for Ayurveda treatment and even though he had tried a lot and was tired, yet he thought that let's try

once again... see what happens! He came to India, started getting his daughter treated at an Ayurvedic hospital in Kerala. The daughter stayed here for a long time. The effect of this Ayurvedic treatment was such that Rosemary's eyesight returned to a great extent. You can imagine, as if a new lease of life was given and light came back into Rosemary's life. As the new light has come in the whole family, Odinga ji was so emotional while telling me this and that he wishes, that the knowledge and science of Ayurveda of India, should be brought to Kenya. The type of plants that are used in it will be cultivated by them and he will do his best to get more people to benefit from it.

- It is a matter of great happiness for me that from our land and our tradition have alleviated such a great suffering from someone's life. You will also be happy to hear this. Which Indian would not be proud of it? We all know that not only Odinga ji but lakhs of people across the world are reaping similar benefits from Ayurveda. ■
