Our Vision for the People of West Bengal

Dear Citizens,

“Amar Sonar Bangla”, when Gurudev penned these words, it was not mere imagination of his, but a term that encompassed the glorious past and future potential of this great Bongo Bhumi. This land which has been blessed by mother nature in terms of resources, and is home to bright, cultured and industrious people.

The sons and daughters of these lands have shaped and transformed the Bengal, ushering a new era of Renaissance—Sri Ramakrishna Paramahansa, Ma Sarada Devi, Swami Vivekananda, Raja Rammohan Roy, Rani Rashmoni, Ishwar Chandra Vidyasagar, Bankim Chandra Chattopadhyay, Gurudev Rabindranath Tagore, Rishi Aurobindo, Netaji Subhash Chandra Bose, Matangini Hazra, Shyama Prasad Mookerjee and so many more have been shining stars in the glorious sky of West Bengal. Bengal was once truly and aptly described by Gopal Krishna Gokhale, “What Bengal thinks today India thinks tomorrow.” This led Bengal to assume the leadership mantle in the freedom struggle and play a leading role in helping India achieve independence.

Even at the time of independence, West Bengal was the pre-eminent industrial, economic and cultural centre of the country. The whole country looked up to West Bengal as a model of development. However, the parties that have ruled West Bengal have effectively reversed its glorious history for their petty political objectives. On one hand, they have exploited the resources of the state for their own enrichment through mafia raj and syndicate while people of West Bengal have been deprived of even the basic needs of life. On the other hand, they have forced the people of West Bengal to live under constant fear of political violence and retribution for voicing their concerns. This decline of the state from industry to governance, from health to education, from political freedom to safety and security of its citizens has led people to cry for change in the state.

BJP is the only political party that has heard these cries of the people of West Bengal. Prime Minister Shri Narendra Modi has provided special focus to West Bengal in the national development agenda. In just 7 years, the BJP-led

NDA government has been able to complete over 950 km of highways in West Bengal, with over 2250 km highway development in the pipeline. 24 lakh households have been built under PM Awas Yojana, with over 10 lakh households receiving clean drinking water and 89 lakh women having access to clean cooking gas. Our achievements speak for themselves, but we realise that there is still a long way to go.

To travel this long way we have reached out to the people of West Bengal and together with them we have created a vision for Sonar Bangla. Our vision for Sonar Bangla is one that seeks to make West Bengal the rightful inheritor of its past glory and make sure its fruits reach everyone in the state in a fair and just manner. We want a Sonar Bangla which is recognized the world over for its culture and glorious history.

A Sonar Bangla which treats all its citizens equally and where government's schemes reach them without any discrimination or favour.

A Sonar Bangla which ensures that people don't have to live under the fear of political violence, mafia raj, and gundaraj.

A Sonar Bangla which is a leader in all aspects of economic and social development.

A Sonar Bangla which enables its youth to achieve their full potential

A Sonar Bangla which empowers its women to be leaders of development

A Sonar Bangla which takes care of all its people by providing accessible and quality healthcare and education

A Sonar Bangla which has the infrastructure that rivals the best amongst the world

A Sonar Bangla which is home to people of all walks of life who live in harmony with each other and enable each other and the whole state to prosper and progress together

A Sonar Bangla which is a place where in Gurudev's words "Where the mind is without fear and the head is held high"

We believe that it is Sonar Bangla's Purboday that will catalyse India's Bhagyoday. After all, how can India be Atmanirbhar without first transforming West Bengal into Sonar Bangla?

With this vision, we are presenting before you this Sonar Bangla Sonkolpo Potro and request your support us in our mission to transform West Bengal into Sonar Bangla.

Yours sincerely

Dilip Ghosh

State BJP President

About Sonar Bangla Sonkolpo Patro

Dear Citizens,

Our great land, has suffered immensely due to the misrule of the parties that governed the state. These parties governed the state with the aim of fulfilling their political agenda instead of the vision to take the state forward. This has resulted in widespread corruption, favouritism, appeasement and mafia raj that has throttled the progress of the state. People of a state which was once the leader in all fields be it economy, industry, education and culture are now bereft of even the most basic necessities of life. People are now fed up with these non performing regimes that are putting the future of the state and its people at risk. They are yearning for a change and want to speak out, put forward their grievances and seek their resolution, but unfortunately, the current regime in the state has used political violence as a tool to silence dissenting voices.

It is in this background that we took up this task of going to people to collect their grievances with the current regime and aspirations for the future. Last year in March, we started our Aar Noy Annay campaign that was aimed to bring out the grievances of people against the current regime and give them a voice. Building on top of that in order to understand what the people of West Bengal want and what is their vision for the future we started our Lokkho Sonar Bangla Campaign to reach out to people. The current regime tried its hardest to intimidate us, the Raths that were meant to collect people's opinion were attacked at various places. Despite this we were overwhelmed by the response of the people. In all, more than 1 crore people participated in our campaigns through various channels like missed calls, more than 35,000 village level meetings, 10,000+ Rath Sabhas, 300 mahila sammelans, 300 intellectual meetings and door to door outreach in all 294 Vidhan Sabhas.

This document is a result of the churning of the voices of these 1 crore people who braved the current regime and its intimidation to come forward and register their views. The BJP is extremely grateful to each and every one of them. The courage of their conviction has made this document a sacred guiding book for our party and its policies. By publishing this document we are taking a vow to fulfill these demands of people of West Bengal after forming the government.

I appeal to you all to help us in fulfilling these vows to transform the state of West Bengal into Sonar Bangla.

Yours sincerely

Dr. Subhash Sarkar
