

Statement in Support of the Citizenship Amendment Act, 2019

We, a group of academicians, intellectuals and research scholars are issuing this statement in our personal capacity in support of the Citizenship Amendment Act (CAA), 2019.

The act fulfils the long-standing demand of providing refuge to persecuted religious minorities from Pakistan, Bangladesh and Afghanistan. Ever since the failure of the Liaquat-Nehru pact of 1950, various leaders and political parties like the Congress, CPI (M) etc, cutting across the ideological spectrum, have demanded the grant of citizenship to religious minorities from Pakistan and Bangladesh who mostly belong to the Dalit castes.

We congratulate the Indian parliament and government for standing up for forgotten minorities and upholding the civilizational ethos of India; providing a haven to those fleeing religious persecution. We also note with satisfaction that the concerns of the North-Eastern states have been heard and are being addressed appropriately. We believe that CAA is in perfect sync with the secular constitution of India as it does not prevent any person of any religion from any country, seeking Indian citizenship. Nor does it change the criteria of citizenship in any way; merely providing a special expedited redress, under special circumstances, for minorities fleeing religious persecution from three specific countries i.e. Pakistan, Bangladesh and Afghanistan. It does not in any way prevent Ahmadis, Hazaras, Baloch or any other denominations and ethnicities, from these same three countries, seeking citizenship through regular processes.

We also note with deep anguish, that an atmosphere of fear and paranoia is being created in the country through deliberate obfuscation and fear-mongering leading to violence in several parts of the country. We appeal to every section of society to exercise restraint and refuse to fall into the trap of propaganda, communalism and anarchism.
